Bio

BIO

Dr. Stephen Richmond (he/him/his) is a family physician, educator, and health justice advocate with specific interest in racial equity in medicine. He currently serves as a clinical assistant professor of medicine in the Division of Primary Care & Population Health (PCPH) in the Stanford Department of Medicine. He completed his A.S. at Solano Community College, B.A. in Molecular & Cell Biology at UC Berkeley, M.P.H. at Harvard T.H. Chan School of Public Health, and his M.D. at David Geffen School of Medicine, UCLA. He is a graduate of the UCSF-San Francisco General Hospital Family & Community Medicine Residency Program.

As a clinician, Dr. Richmond cares for individuals of all ages with a wide range of acute and chronic illnesses. He is especially passionate about providing high quality, evidenced-based care to underserved communities of color. As a researcher and educator, his interests broadly involve the intersection of race, racism, and medicine, with current projects focused on applications of Critical Race Theory to medical education and clinical care. He currently serves as the faculty director for the REACH Health Equity Scholarly Concentration within the school of Medicine and the Diversity, Equity, & Inclusion Curriculum Lead within the PCPH Division.

Beyond Stanford, Dr. Richmond is involved in many ongoing advocacy efforts aimed at achieving health equity through individual and structural-level change. Dr. Richmond has received multiple teaching awards for his work in the space of equity, inclusion & anti-oppression in medicine, and is a routine presenter and consultant in these areas.
