Bio

BIO

Yuyin Zhou is currently a Postdoctoral Fellow at Stanford. Her research interests span the fields of medical image computing, computer vision, and machine learning, especially the intersection of them. Yuyin received her Ph.D. degree in Computer Science from Johns Hopkins University, advised by Bloomberg Distinguished Professor Alan Yuille. Her project with Johns Hopkins Medicine on organ segmentation has been featured on National Public Radio. Yuyin has published over 20 peer-reviewed papers including top-tier venues such as CVPR, ICCV, AAAI, MICCAI, TMI, and MedIA, and was the runner-up in MICCAI 2018 - Computational Precision Medicine: Pancreatic Cancer Survival Prediction Challenge. She also interned at Google Cloud AI and Google Brain.

STANFORD ADVISORS

- Matthew Lungren, Postdoctoral Faculty Sponsor
- Lei Xing, Postdoctoral Research Mentor
