

Katherine van Stolk-Cooke

Postdoctoral Scholar, Psychiatry

Bio

BIO

Katherine (Cassie) van Stolk-Cooke received her Ph.D. in Clinical Psychology from the University of Vermont. She completed internship at the Veteran's Affairs Palo Alto Healthcare system, where she began collaborating with the Mobile Apps Research Group in the National Center for PTSD.

Cassie is currently a T32 Research Fellow with research interests in the bidirectional relation between social support and posttraumatic stress, Concerned Significant Others of adult trauma survivors, and technology-facilitated research and intervention methods. Though she was clinically trained as a generalist, she has specific expertise in the treatment of PTSD and related disorders.
