Bio

BIO

Dr. Steven Tate serves as a Clinical Assistant Professor specializing in addiction medicine within the Department of Psychiatry & Behavioral Sciences at Stanford University School of Medicine. He earned his medical degree from the University of Chicago and completed his internal medicine residency at the University of Pennsylvania. He then successfully completed a fellowship in addiction medicine at Stanford. With a Master's in medical statistics from the London School of Hygiene & Tropical Medicine, Dr. Tate brings a rigorous and evidence-based approach to his work.

Dr. Tate sees patients in the Stanford Dual Diagnosis Clinic, providing comprehensive care for individuals with co-occurring mental health and substance use disorders. He also attends on the inpatient addiction medicine consult service, where he offers guidance to healthcare professionals on complex addiction-related cases. Driven by his dedication to improving care for patients with substance use disorders, he focuses his work on educating future addiction professionals and translating evidence into practice.
