

Bernadett Mahanay

Fellowship Programs Manager, Anesthesia

SUPERVISORS

- Candice Kunkle

Bio

BIO

As the Fellowship Programs Manager for the Department of Anesthesiology, Perioperative and Pain Medicine I am responsible for overseeing program management and administration of ACGME accredited clinical fellowship programs, this includes development and implementation of procedures, policies and program activities. I am interested in finding ways to bridge gaps in fellow education by developing cross fellowship initiatives such as financial policies and bringing a holistic approach to the curriculum for our fellows in areas such as wellness, diversity and global health. I have worked for the Department of Anesthesiology, Perioperative and Pain Medicine since October 2000 and my previous roles include Fellowship Program Supervisor, Senior Fellowship Coordinator, Fellowship Coordinator and my first position in the department as an Administrative Associate for the Research Division.

In my personal time I enjoy make-up artistry, hiking, walking, event planning, home renovations and spending time with family/friends. One of my favorite hobbies is planning events and parties such as weddings, milestone birthdays and showers.

CURRENT ROLE AT STANFORD

Fellowship Programs Manager
