Unit/Program Communicator, SLAC National Accelerator Laboratory

Bio

BIO

I'm a communicator with a love for storytelling and a master's degree in history.

At SLAC, I write stories about people. Before then, I worked with educators, administrators, students, artists and scientists to communicate their experiences to diverse audiences.

The arc of my career spans communications, publishing, higher education, fine arts and oral history. It's led to meaningful and challenging work in places like Los Angeles, the Bay Area and Chicago.
