

Stanford

Kyan Younes, MD

Clinical Assistant Professor, Neurology & Neurological Sciences

CLINICAL OFFICES

- **Stanford Neuroscience Health Center**

213 Quarry Rd

3rd Fl MC 5958

Palo Alto, CA 94304

Tel (650) 723-6469 **Fax** (650) 725-0390

- **UCSF Memory and Aging Center**

1500 Owens St Ste 320

San Francisco, CA 94158

Tel (415) 353-2057 **Fax** (415) 353-8292

Bio

BIO

Dr. Younes is a fellowship-trained, board-certified neurologist and a clinical assistant professor in the Department of Neurology at Stanford University School of Medicine.

His areas of expertise include the diagnosis and treatment of Alzheimer's disease, frontotemporal dementia, primary progressive aphasia, Lewy body dementia, normal pressure hydrocephalus and cognitive and behavioral impairments. For each patient, Dr. Younes develops a personalized plan of care. A plan may include his close collaboration with experts from psychiatry, nursing, pharmacy, genetic counseling, and other specialties. His goal is to ensure that each patient receives care that is both comprehensive and compassionate.

To help lead advances and innovations in his field, Dr. Younes conducts extensive research. He is studying the clinical, neuropsychological, socioemotional, genetic, and pathological features when a patient experiences degeneration of the right anterior temporal lobe area of the brain. This disorder can affect a person's ability to process emotions and person-specific knowledge.

He also is researching how multimodal brain imaging, including magnetic resonance imaging (MRI) and Positron Emission Tomography (PET) combined with machine learning can help improve the detection of neurodegenerative diseases. In other research, he has participated in clinical trials of new drug therapies for Alzheimer's disease.

Dr. Younes has presented research findings at meetings of the American Neurological Association, American Academy of Neurology, and American Psychiatric Association. Topics have included predictors of cognitive performance in dementia.

He has co-authored research articles published in the American Journal of Psychiatry, Annals of Clinical and Translational Neurology, Journal of Neuroimaging, and elsewhere. Subjects of these articles have included guidelines for diagnosing the effects of right anterior temporal lobe degeneration on behavior, treatment for symptoms of encephalitis, and the impact of mild traumatic brain injury on healthy older adults.

Dr. Younes has written chapters on frontotemporal dementia for Psychiatric Clinics as well as the epilepsy, coma, acute ischemic stroke, meningitis and encephalitis chapters for the textbook The Little Black Book of Neurology.

He is a member of the American Academy of Neurology, American Neurological Association, Alzheimer's Association, and International Society for Frontotemporal Dementias.

CLINICAL FOCUS

- Neurology
- Cognitive Dysfunction
- Alzheimer's Disease
- Frontotemporal Dementia
- Primary Progressive Aphasia
- Lewy Body Dementia
- Normal Pressure Hydrocephalus

ACADEMIC APPOINTMENTS

- Clinical Assistant Professor, Neurology & Neurological Sciences

PROFESSIONAL EDUCATION

- Residency: University of Texas Health Science Center (2018) TX
- Fellowship: UCSF Dept of Neurology (2021) CA
- Board Certification: Neurology, American Board of Psychiatry and Neurology (2018)
- Medical Education: University of Damascus, Faculty of Medicine (2013) Syria

Publications

PUBLICATIONS

- **Right temporal lobe and socioemotional semantics: semantic behavioural variant frontotemporal dementia.** *Brain : a journal of neurology*
Younes, K., Borghesani, V., Montembeault, M., Spina, S., Mandelli, M. L., Welch, A. E., Weis, E., Callahan, P., Elahi, F. M., Hua, A. Y., Perry, D. C., Karydas, A., Geschwind, et al
2022
- **Divergent Cortical Tau Positron Emission Tomography Patterns Among Patients With Preclinical Alzheimer Disease.** *JAMA neurology*
