Clinic A MC 6560

Stanford, CA 94305

Tel (650) 498-6000 **Fax** (650) 724-5203

Bio

BIO

Dr. Diep is a board-certified, fellowship-trained hematologist with Stanford's Hematology Program and Hematologic Cancer Program. He is also a clinical assistant professor with the Department of Medicine, Division of Hematology.

He diagnoses and treats patients with a wide range of nonmalignant hematology conditions. His special interests include clotting disorders, bleeding disorders, hemoglobinopathies, and disorders affecting blood count. Subspecialty interests include anticoagulation and thrombosis.

Dr. Diep's practice style emphasizes shared decision-making by building patient-physician relationships and using the best available evidence to create treatment plans. He is passionate about improving care for patients with blood disorders and has helped expand access to hematology care by launching an electronic consult service for primary care providers.

Dr. Diep's research interests include anticoagulation, thrombosis, and bleeding disorders. He has participated in research projects that have received funding from the National Heart, Lung, and Blood Institute.

Dr. Diep has published in multiple peer-reviewed journals, and has presented to his peers at national and regional meetings.

He is a member of the American Society of Hematology, American Society of Clinical Oncology, Hemostasis and Thrombosis Research Society, International Society of Hemostasis and Thrombosis, and Anticoagulation Forum. Dr. Diep serves as quality director for the Division of Hematology.

CLINICAL FOCUS

- Hematology

ACADEMIC APPOINTMENTS

- Clinical Assistant Professor, Medicine - Hematology
