#### Bio

#### **BIO**

Dr. Peter Bendix is board-certified in general surgery, trauma surgery, and critical care. He is an assistant professor at the Stanford University School of Medicine. He obtained his medical degree from the University of California – Davis and a master's degree in public health from the Harvard School of Public Health. He completed surgical residency at Dartmouth and his Acute Care Surgery and Surgical Critical Care fellowships at the Brigham and Women's Hospital in Boston. His clinical focus is on conditions of traumatic injury, emergency general surgery, and surgical critical care.

Dr. Bendix served in the United States Peace Corps as a health extensionist in The Gambia region of West Africa. He also conducted fieldwork for the National Institutes of Health in Haiti and Mozambique. His research interests include the health impacts of gun violence; and racial, ethnic, and socioeconomic disparities in health care delivery. Prior to joining Stanford, he worked as a trauma surgeon at the University of Chicago.
