

Stanford

Aadit Shah

MD Student, expected graduation Spring 2026

Bio

BIO

Aadit is an MD candidate at Stanford with a BS in Biomedical Engineering from Washington University and an MPhil in Bioscience Enterprise from the University of Cambridge. While completing these degrees, he conducted 4 years of immunology/infectious diseases research as well as led the development of a medical device through to acquisition. While at Cambridge and Stanford, he gained exposure to operating and investing experience in therapeutics (particularly immuno-oncology and genetic medicines) with prior work spanning Flagship Pioneering, Tessera Therapeutics, and 5AM Ventures. As an advocate for the larger student innovation community, Aadit oversaw the national network of biomedical incubators: Sling Health. As National Network President, he supported more than 1000 students across 15 institutions and reported outcomes twice in Nature Biotechnology.

EDUCATION AND CERTIFICATIONS

- Bachelor of Science, Washington University , UG Bioengineering (2019)
- Master of Philosophy, University of Cambridge (2021)
- MPhil, University of Cambridge , Bioscience Enterprise
- BS, Washington University in St. Louis , Biomedical Engineering

PATENTS

- Aadit Shah. "United States Patent WO2018201008A1 Non-mydratric mobile retinal imager", Spect Inc
