

## Noor A. Hussein

Postdoctoral Scholar, Human Gene Therapy

### Bio

---

#### BIO

I am a pharmacologist scientist. My experience as a researcher has taught me to seek out new perspectives for exploration and discovery. As a dedicated biological and pharmacological researcher with over 7 years of experience with models of diseases such as cancer both in vitro and in vivo. During my masters and Ph.D. studies, I mastered lots of molecular biology techniques, including cell culture, cytotoxicity assays, western blot, quantitative PCR, immunofluorescence, flow cytometry. I utilized my skills to design experiments finding solutions to common problems in the biomedical field, especially cancer experimental and molecular therapeutics.

#### INSTITUTE AFFILIATIONS

- Member, Maternal & Child Health Research Institute (MCHRI)

#### HONORS AND AWARDS

- Scholar in training award, American association for cancer research (March 2020)
- Best poster presentation award, Emerging health Care and Advancement in Toxicology international conference (September 1st 2016)

#### BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Review Editor for Experimental Pharmacology and Drug Discovery, Frontiers in Pharmacology Journal (2021 - present)
- Associate member, American association for cancer research (2017 - present)

#### STANFORD ADVISORS

- Mark Kay, Postdoctoral Faculty Sponsor
