

Stanford

Melissa Steele-Ogus

Postdoctoral Scholar, Pathology

 Curriculum Vitae available Online

Bio

BIO

Melissa Steele-Ogus grew up in Berkeley, California. She received a BS in Environmental Sciences and BA in Molecular Biology from the University of California, Berkeley, in 2012. She earned a PhD in Biology from the University of Washington in 2021, studying the actin cytoskeleton of *Giardia lamblia*. In her free time, she enjoys dancing, baking, and birdwatching. She may be secretly some sort of weird bug, but probably isn't.
