

Stanford

Lu Ji

Postdoctoral Scholar, Radiation Biology

Bio

BIO

Driven by the enthusiasm and curiosity about life science and human disease, I have been working on cancer research for more than 5 years. I focus on developing novel therapeutic targets from tumor microenvironment and uncovering mechanisms of tumor progression, especially with expertise in gastrointestinal tumor biology and tumor microenvironment analysis. Now I'm digging into a field about finding a way to empower immunotherapy by appropriately utilizing radiation therapy.

PROFESSIONAL EDUCATION

- Doctor of Philosophy, Shanghai Jiaotong University (2021)
- B.S., East China University of Science and Technology , Biology engineering (2016)
- Ph.D., Shanghai Jiao Tong University , Biology (2021)

STANFORD ADVISORS

- Erinn Rankin, Postdoctoral Faculty Sponsor

PATENTS

- Wei-Qiang Gao, Bin Ma, Lu Ji. "China P.Rep. Patent ZL 2019 1 1408316.3 The immunotherapy method for gastric cancer via blocking chemokine CCL28", Shanghai Jiao Tong University, Aug 17, 2021
