

Magdalini Paschali

Postdoctoral Scholar, Radiology

 Curriculum Vitae available Online

Bio

BIO

I am a Postdoctoral Scholar working with Prof. Akshay Chaudhari and Prof. David Larson in the Department of Radiology at Stanford focusing on evaluating the robustness of large-scale AI models and identifying early disease biomarkers.

Until August 2023, I was a Postdoctoral Scholar in the Computational Neuroimage Science Laboratory (CNS Lab) with Prof. Kilian M. Pohl working on multi-modal machine learning models that can improve the understanding, diagnosis, and treatment of neuropsychiatric disorders.

Previously I completed my PhD at the Chair for Computer Aided Medical Procedures at the Technical University of Munich under the supervision of Prof. Nassir Navab and my dissertation was titled "Learning Robust Representations for Medical Diagnosis". I am passionate about designing trustworthy deep learning methods for challenging applications.

HONORS AND AWARDS

- Best Paper Award, PRedictive Intelligence In MEDicine - PRIME - MICCAI (September 2022)
- Best Paper Award, Uncertainty for Safe Utilization of Machine Learning in Medical Imaging - UNSURE - MICCAI (September 2021)
- Graduate Student Travel Award, Medical Image Computing and Computer Assisted Interventions (MICCAI) (October 2019)
- Best Poster Award, International Conference on Information Processing in Medical Imaging (IPMI) (June 2019)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Public Relations Officer, MICCAI Student Board (2017 - 2020)

PROFESSIONAL EDUCATION

- Doctor of Philosophy, Technische Universitat Munchen (2021)
- Master of Science, Technische Universitat Munchen (2017)
- Bachelor of Science, Aristoteleio College Thessaloniki (2015)
- PhD, Technical University of Munich , Learning Robust Representations for Medical Diagnosis (2021)
- M.Sc., Technical University of Munich , Informatics (2017)
- B.Sc., Aristotle University of Thessaloniki , Informatics (2015)

STANFORD ADVISORS

- Akshay Chaudhari, Postdoctoral Faculty Sponsor
- David Larson, Postdoctoral Research Mentor

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

My research focuses on utilizing machine learning models to enhance the understanding, diagnosis, and treatment of clinical disorders. I am interested in multi-modal learning, combining imaging data like MRI and CT scans with non-imaging data such as electronic health records, creating more holistic and accurate diagnostic models. I am also interested in the robustness of deep neural networks under domain shifts, investigating how models perform when faced with changes in input data distributions.

Finally, I am interested in early biomarker identification using AI model interpretability, to enable the early detection and targeted treatment of chronic disorders.
