Stanford

Sahil Dhakla

Masters Student in Civil and Environmental Engineering, admitted Autumn 2023

Bio

BIO

Dedicated to advancing technology in construction, I am a results-driven professional with a proven track record in Virtual Design Construction (VDC) and sustainable project execution. As a Master's candidate in Sustainable Design & Construction at Stanford University, my expertise spans the realms of on-site construction, BIM, Augmented/Virtual Reality, and document control.

With a background as a VDC Engineer and Founder/Principal Consultant at BuiltVisor Pvt Ltd, I have led dynamic teams, facilitated cross-functional dialogue, and ensured the successful implementation of technology-driven workflows. My commitment to people-oriented organizations and sustainable practices aligns with my goal of contributing to societal upliftment through innovative technological solutions in the construction industry.
