

Marta Arenas Jal

Postdoctoral Scholar, Bioengineering

Bio

BIO

Marta holds a PhD in Drug Research and Development and an Executive MBA, with additional postgraduate studies in healthcare innovation, entrepreneurship, and technology transfer. She is passionate about healthcare research and innovation, with a strong track record of successfully translating research and innovation into real-world impact. She is a curious, creative, and open-minded individual who is always seeking to solve complex problems to make a positive impact on patients' lives.

In the early stages of her career, she served as Director of R&D in the pharmaceutical industry, successfully driving product development and market launch initiatives. She later joined CIMTI, a health startup accelerator, where she supported innovators in developing and implementing solutions that improve healthcare quality and patient outcomes. Currently, Marta is a Healthcare Innovator and Assistant Director at Impact1, a Stanford Biodesign initiative focused on advancing innovation in pediatric and maternal health.

INSTITUTE AFFILIATIONS

- Member, Maternal & Child Health Research Institute (MCHRI)

STANFORD ADVISORS

- James Wall, Postdoctoral Research Mentor
- Josh Makower, Postdoctoral Faculty Sponsor
