#### BIO

Dr. Talozzi aims to contribute to the definition of quantitative biomarkers for neurological pathologies. She has a physics background, and a master's in applied physics. She graduated with honors from Bologna University, where she pursued her Ph.D. in Biomedical and Neuromotor Sciences. During her doctoral studies, she worked primarily with magnetic resonance imaging, majoring in tractography methods, for which she was awarded a scholarship at the Neuroanatomy and Tractography Laboratory, King's College London. Subsequently, she exploited dimensionality reduction techniques for associating white matter damage with clinical symptoms within the Bordeaux University Disconnectome ERC grant. Currently, she expanded her research horizons to genetic investigations by joining the Greicius Lab. She aims to develop novel strategies for modeling risk scores for Alzheimer's pathology using long read sequencing methodologies.

#### HONORS AND AWARDS

- Research exchange grant King's College London, Marco Polo funding, Bologna University (2018)
- Travel grant AIRMM, Italian Association for Magnetic Resonance in Medicine (AIRMM) (2019)
- Travel grant OHBM conference, Guarantors of Brain UK (2019)
- Educational stipend ISMRM, International Society of Magnetic Resonance in Medicine (2017/2018/2020)
- Top ranked OHBM Glasgow abstract, merit travel stipend., Organization of Human Brain Mapping (OHBM) (2022)
- Seal of excellence for the MSCA HORIZON-MSCA-2021-PF-01-01, European Union MSCA grant (2022)

#### PROFESSIONAL EDUCATION

- Doctor of Philosophy, Universita Degli Studi Di Bologna (2019)
- Master of Science, Universita Degli Studi Di Bologna (2016)
- Bachelor of Science, Universita Degli Studi Di Bologna (2013)
- BS, Bologna University , Physics (2013)
- MSc, Bologna University , Applied Physics (2016)
- PhD, Bologna University , Biomedical and Neuromotor Sciences (2019)
