## Teddy J. Akiki, MD

Affiliate, Psych/Major Laboratories and Clinical & Translational Neurosciences Incubator

### Bio

---

#### BIO

Teddy Akiki's research is focused on the development of rapid-acting therapeutics for treatment-resistant depression, anxiety, and PTSD (glutamatergic antidepressants such as ketamine, psychedelic compounds, and brain stimulation), precision psychiatry, and understanding the neural underpinnings of trauma- and stress-related disorders (neuroimaging, network neuroscience, computational modeling).

#### TRAINING

---

- Psychiatry Residency

Interventional Psychiatry Track

Stanford University

- Psychiatry Residency

Research Track

Cleveland Clinic Foundation

- Postdoctoral Fellowship

Yale University School of Medicine, Department of Psychiatry,

VA National Center for PTSD, Clinical Neurosciences Division
