

Stanford

Zachary Bruce White II

- Affiliate, Dean's Office Operations - Dean Other
- Resident in Radiation Oncology - Radiation Therapy

Bio

BIO

I'm originally from Birmingham, AL. I completed my undergraduate education at Tuskegee University and majored in Biology/Pre-Health and minored in Bioethics. I also received a Master of Science in Biomedical & Health Sciences from the University of Alabama at Birmingham and completed medical school at the University of South Alabama College of Medicine. Following graduation from medical school, my intern year was spent in my hometown at Brookwood Baptist Health Transitional Year Program. One of my favorite aspects of radiation oncology at Stanford is the opportunity to give compassionate medical care to our cancer patients while working with the latest state-of-the-art medical technology. In my free time I enjoy playing tennis, exercising, traveling, trying new restaurants, and spending time with my family & friends.

CLINICAL FOCUS

- Residency
- Radiation Oncology
