

## Samuel Montalvo Hernandez

Postdoctoral Scholar, Cardiovascular Medicine

 Curriculum Vitae available Online

### Bio

---

#### BIO

As a clinical exercise physiologist and sport biomechanist, I am dedicated to advancing human exercise and sports performance. I hold certifications as a Performance and Sport Scientist (CPSS) and as a Strength and Conditioning Specialist with Distinction (CSCS, \*D) from the National Strength and Conditioning Association (NSCA). In 2022, I was honored with the Wu Tsai Human Performance Alliance Post-Doctoral Research Fellowship and a T32 Post-Doctoral Fellowship, Research Training in Myocardial Biology (TIMBS) at Stanford University.

My research focuses on understanding the mechanical, molecular, and physiological mechanisms that underpin human performance. I am also committed to developing innovative and practical training methods to enhance exercise and sports performance. Currently, I am a member of the Stanford Bioinformatics Core, contributing to the NIH-funded Molecular Transducers of Physical Activity Consortium (MoTrPAC) project. In this capacity, I analyze extensive clinical and exercise datasets, as well as multi-omic, multi-tissue, multi-exercise modality, and multi-species data, to uncover new insights into the biological mechanisms of physical activity and its impact on human health and performance.

In addition to my primary research focus, I collaborate with several teams at Stanford on projects involving Sports and Electrocardiography, Cardiopulmonary Exercise Testing, Exercise and Neuromuscular Disease, and the Stanford Baseball Team.

Beyond research, I am deeply committed to teaching, mentoring, and promoting diversity. As a first-generation college graduate and a Mexican-American with Indigenous heritage, I bring a unique perspective to my work, which informs my dedication to creating supportive and inclusive spaces for underrepresented groups in science and education. I serve as a Post-Doc Mentoring Coach in collaboration with the Stanford Office of Postdoctoral Affairs, where I facilitate bi-weekly workshops on mentoring for postdocs. I am also part of the Stanford PRISM program, which promotes inclusion and diversity among postdoctoral scholars. Furthermore, I mentor prospective and current medical students through the MAVERICs program (Metascience Analyses and Explorations of Reproducibility in Cardiovascular Science) as part of the Stanford Cardiovascular Institute, supporting their growth in cardiovascular research.

These experiences reflect my dedication to fostering an inclusive and supportive academic environment. My long-term goal is to become a professor, combining my passion for research, education, and mentoring the next generation of scientists to advance the fields of exercise physiology and sports science.

#### HONORS AND AWARDS

- T32 Post-Doctoral Fellowship, Research Training in Myocardial Biology at Stanford (TIMBS), Stanford University (8/1/2024)

- Invited International Guest Speaker Award, Universidad Autonoma de Nuevo Leon (UANL), Monterrey, Mexico (9/10/2024)
- Recipient of Recognition for Scientific Research and Applied Sports Sciences, Mexican Federation of Applied Sports Sciences (FEMECAD) | Mexican Sports Confederation (CODEME) (9/14/2024)
- Post-Doctoral Fellowship, Wu Tsai Human Performance Alliance, Stanford University (8/1/2022)
- 1st Place on Scientific Poster Presentations, 2nd International Student Congress of Exercise Sciences in Monterrey, Mexico. (2018)
- National Sports Award "Luchador Olmeca", Confederación Deportiva Mexicana (2011)

## BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Post Doctoral Fellow, Wu Tsai Human Performance Alliance (2022 - present)
- Member, American Heart Association (2022 - present)
- Post-Doc, Stanford Cardiovascular Institute (2022 - present)
- Member, National Strength and Conditioning Association (2018 - present)
- Member, American College of Sports Medicine (2018 - present)

## PROFESSIONAL EDUCATION

- Doctor of Philosophy, The University of Texas at El Paso , Interdisciplinary Health Sciences - Strength and Conditioning (2021)
- Master of Science, The University of Texas at El Paso , Kinesiology - Clinical Exercise Physiology (2015)
- Bachelor of Science, The University of Texas at El Paso , Kinesiology - Physical Education (2011)

## STANFORD ADVISORS

- Matthew Wheeler, Postdoctoral Faculty Sponsor
