### Bio

---

#### BIO

Cyan is a physician from Johannesburg, South Africa. She completed a master's in public health with a global health specialization through Kings College London. Her research focused on low-cost innovation in surgical care in low-and-middle-income countries. She is a lifelong Atlantic Institute fellow for health equity and services on the Atlantic Institute governing board. She is interested in global health innovation with a focus on creating more environmentally sustainable and equitable healthcare systems. She is currently a Biodesign Fellow at Stanford.
