Bio

BIO

Dr. Lin is a cardiothoracic surgeon and clinical assistant professor in the Department of Cardiothoracic Surgery at Stanford University School of Medicine. She provides the complete spectrum of surgical care for cardiac conditions, including ischemic heart disease, structural heart disease, aortic disease, and arrhythmias.

Dr. Lin's research is focused on surgical education and global disparities in surgical care. She obtained her Master of Public Health from the Harvard School of Public Health. Her research aims to decrease barriers and disparities in surgical care, including in low and middle income settings.
