

Brandy M. Fox

Postdoctoral Scholar, Biomedical Ethics

Bio

BIO

Brandy M. Fox, Ph.D., is a Research Fellow at the Stanford Center for Biomedical Ethics with support from a National Human Genome Research Institute's Ethical Legal and Social Implications (ELSI) Program training grant. She received her Ph.D. in Health Care Ethics with a concentration in Empirical Research from The Albert Gnaegi Center for Health Care Ethics at Saint Louis University under the supervision of Harold Braswell. She also holds a BA in Politics from The Catholic University of America and an MS in Health Care Ethics from Creighton University. Brandy served as an officer in the US Army and has worked for the Department of Veterans Affairs and Creighton University School of Pharmacy and Health Professions. Brandy is interested in the impact of genetic research on mental health diagnoses and treatment, including how mental illness is defined and conceptualized.
