Bio

Diana M. Tordoff, PhD, MPH is a postdoctoral scholar with The PRIDE Study (pridestudy.org) at the Stanford School of Medicine. She is an epidemiologist whose research focuses on LGBTQ+ health equity. Prior to joining The PRIDE Study, Diana was awarded an NIH Kirschstein National Research Service Fellowship for her doctoral dissertation, which examined the heterogeneity in HIV/STI prevalence, testing, and PrEP use among transgender and non-binary people and their partners in the US. Her interests include barriers and facilitators of healthcare access for LGBTQ+ communities, sexual and reproductive health, molecular epidemiology, the vaginal microbiome, and community-engaged research methods.

Institute Affiliations

- Member, Maternal & Child Health Research Institute (MCHRI)

Honors and Awards

- Ruth L. Kirschstein National Research Service Award Individual Predoctoral Fellowship (F31AI152542), National Institutes of Allergy and Infectious Diseases (2020-2022)
