#### BIO

Dr. Tan is a board-certified sleep medicine physician with the Sleep Medicine Center at Stanford Health Care. She is also a clinical associate professor in the Department of Psychiatry and Behavioral Sciences at Stanford University School of Medicine.

Dr. Tan specializes in diagnosing and treating common and rare sleep disorders. Her multidisciplinary approach to care is focused on improving patients' quality of life and long-term health. Dr. Tan is fellowship-trained and board-certified in sleep medicine, pulmonary medicine, and critical care medicine.

Some of Dr. Tan's research has focused on improving the understanding of fatigue and sleep disorders in cancer patients and survivors. Her work has also highlighted the positive potential of artificial intelligence and machine learning to enhance diagnostic methods for sleep disorders.

Dr. Tan has published her work in numerous prestigious peer-reviewed journals, including the American Journal of Respiratory and Critical Care Medicine, Chest, and the Journal of Clinical Sleep Medicine. She has also been an invited guest speaker and moderator at national meetings, including those for the American College of Chest Physicians and the American Academy of Sleep Medicine.

Dr. Tan is a fellow of the American College of Chest Physicians and a member of the American Academy of Sleep Medicine and the American Thoracic Society.
