Albaraa A Basfar

Postdoctoral Scholar, General and Vascular Surgery

Bio

BIO

Albaraa Basfar Ph.D. is a Postdoctoral Scholar at the S-SPIRE Center at Stanford University. He received his Ph.D. in Educational Research and Evaluation from Ohio University in 2023. His research interests include program evaluation, research methodology, and education.

Dr. Basfar has a strong quantitative, qualitative, and mixed-methods research background. He has experience in managing programs, conducting research, and analyzing data. He is also proficient in using SAS, R, SPSS, and Python.

Prior to joining the S-SPIRE Center, Dr. Basfar was a Research Analyst at Pensacola State College. In this role, he was responsible for compiling, arranging, and presenting data reports for several communities and college departments. He also created and analyzed surveys, Tableau visual dashboards, and conducted data research related to grants and accreditations.

Dr. Basfar is passionate about using research to improve education and positively impact students' lives. He is excited to continue his research at S-SPIRE and contribute to the field of Pipeline Programs.
