Publications

PUBLICATIONS

- **Sleep patterns predicting stress resilience are dependent on sex.** *Neuropsychopharmacology : official publication of the American College of Neuropsychopharmacology*
  Bush, B. J., Mohamed, A., Andrews, E. J., Cain, G., Fawole, A., Johnson, H., Arocho, A., Qiao, Z., Paul, K. N., Ehlen, J. C.
  2025

- **Extended Amygdala Neural Circuits Linking Hormonal Influences on Body Temperature to Sleep and Circadian Rhythms**
  Bush, B., Sardar, H., Aloboudi, F., Hoang, I., Rogers, E., Morningstar, A., Ma, Y., Cengio, L., Buchanan, R., Gibson, E., Giardino, W.
  OXFORD UNIV PRESS INC.2025: A39

- **Non-rapid eye movement sleep determines resilience to social stress.** *eLife*
  Bush, B. J., Donnay, C., Andrews, E. A., Lewis-Sanders, D., Gray, C. L., Qiao, Z., Brager, A. J., Johnson, H., Brewer, H. C., Sood, S., Saafir, T., Benveniste, M., Paul, et al
  2022; 11

- **Nitrergic neurons of the dorsal raphe nucleus encode information about stress duration.** *PloS one*
  Nichols, I. S., Jones, M. I., Okere, C., Ananaba, G., Bush, B., Gray, C., Brager, A., Ehlen, J. C., Paul, K.
  2017; 12 (11): e0187071
