

Ester Patrizze Aguilar (she/they)

Clinical Research Coordinator Associate, Psychiatry and Behavioral Sciences -
Interdisciplinary Brain Sciences

Bio

BIO

Patrizze completed their B.S. in Neuroscience and minor in Psychology at the University of Nevada, Reno. In their undergraduate career, Patrizze participated in research studying the etiology and treatment of anxiety and stress-related disorders. They are currently interested in translational neuropsychiatric research, specifically addressing clinical intervention in diverse communities and eliminating health disparity in research. Prior to working at Stanford, they worked as an afterschool teacher for underserved students in San Jose. Outside of the lab, Patrizze enjoys creating polymer clay art and volunteering in local mutual aid groups.
