

Stanford

Brian Boitnott

Ph.D. Student in Biomedical Physics, admitted Autumn 2023

Bio

BIO

I am currently a PhD student in Biomedical Physics within the Department of Radiology at the School of Medicine. In the two years prior to Stanford, I was at MIT Lincoln Laboratory, where I worked on airborne laser radar systems and was on the core team developing a laser-ultrasound system for medical imaging.

My interests are at the intersection between medical technology innovation, clinical translation, and business.

EDUCATION AND CERTIFICATIONS

- Bachelor of Science, Bates College , Chemistry (2021)
- Affiliate Student, University College London (2020)
