

Boya Wang

Postdoctoral Scholar, Economics

Bio

BIO

Boya Wang is a postdoctoral scholar at Stanford University, specializing in the field of early childhood development. Her research is dedicated to identifying and implementing effective programs and policies aimed at enhancing the well-being of children in rural China. With a wealth of field experience, she has a keen interest in promoting early human capital formation. Through large-scale randomized controlled trials, she evaluates the profound impact of parenting interventions on enhancing parenting practices, improving caregiver mental health, and fostering early childhood development.
