## Joy Wu

Associate Professor of Medicine (Endocrinology)  
Medicine - Endocrinology, Gerontology, & Metabolism

### **CLINICAL OFFICE (PRIMARY)**

- **Endocrine Clinic within Ambulatory Care Clinic**

300 Pasteur Dr Rm A13

Stanford, CA 94305

**Tel** (650) 721-1300      **Fax** (650) 498-5823

### **Bio**

---

#### **BIO**

Dr Joy Wu is Chief of the Division of Endocrinology and Vice Chair of Basic Science in the Department of Medicine at Stanford. She is a board-certified endocrinologist who specializes in treating osteoporosis and other bone and mineral diseases. She has a special interest in optimizing skeletal health for those at risk of bone loss from glucocorticoid treatment, cancer therapies, or organ transplant. She has served on expert panels and guideline committees for the American Society for Transplantation and Cellular Therapy, the American Society of Clinical Oncology, and the Endocrine Society.

Dr. Wu also directs a basic and translational research program that focuses on skeletal development and the bone marrow hematopoietic niche. Her laboratory is currently studying stem cell therapies for bone formation, and the prevention of cancer metastases to bone ([joywulab.stanford.edu](http://joywulab.stanford.edu)). She has been honored with awards from the NIH Director's New Innovator Award, the Endocrine Society, the American Society for Bone and Mineral Research, and the Mary Kay Foundation, and she is a standing member of the NIH Skeletal Biology Development and Disease study section panel. She has served on the Board of Directors for the Endocrine Society and is currently a member of the governing Council of the American Society for Bone and Mineral Research.

#### **CLINICAL FOCUS**

- Osteoporosis
- Metabolic Bone Disease
- Endocrinology
- Diabetes and Metabolism

#### **ACADEMIC APPOINTMENTS**

- Associate Professor, Medicine - Endocrinology, Gerontology, & Metabolism
- Member, Bio-X
- Member, Wu Tsai Human Performance Alliance
- Member, Maternal & Child Health Research Institute (MCHRI)
- Member, Stanford Cancer Institute

## ADMINISTRATIVE APPOINTMENTS

- Chief, Division of Endocrinology, Gerontology and Metabolism, (2022- present)
- Steering Committee Member, Team Science Initiative, Department of Medicine, (2022- present)
- Vice Chair, Basic Science, Department of Medicine, (2020- present)
- Associate Member, Stanford Diabetes Research Center, (2018- present)
- Co-Director, Translational Investigator Program, Department of Medicine, (2015-2022)

## HONORS AND AWARDS

- Faculty Women's Forum Allyship Award, Stanford University (2021)
- Fellow, American Society for Bone and Mineral Research (2021)
- Alford Distinguished Lecture, Baylor College of Medicine (2019)
- Cancer Grant Recipient, The Mary Kay Foundation (2013)
- NIH Director's New Innovator Award, NIH (2011)
- Claflin Distinguished Scholar Award, Massachusetts General Hospital (2009)
- Clinical Scientist Program Instructor Development Award, Harvard Stem Cell Institute (2009)
- John Haddad Young Investigator Award, Advances in Mineral Metabolism (2008)
- Merck Senior Fellow Award, The Endocrine Society (2007)
- Endocrine Scholars Award, The Endocrine Society (2006)
- Young Investigator Award, American Society for Bone and Mineral Research Annual Meeting (2006)
- Alpha Omega Alpha, Duke University School of Medicine (1997)
- Marsden Memorial Award in Chemistry, Stanford University (1993)
- Phi Beta Kappa, Stanford University (1993)

## BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Councilor, American Society for Bone and Mineral Research (2022 - present)
- Member, Scientific Advisory Board, Crinetics Pharmaceuticals (2022 - present)
- Vice Chair, Bones and Teeth Gordon Research Conference (2022 - present)
- Member, Skeletal Biology Development and Disease Study Section, NIH (2020 - present)
- Member, Board of Directors, The Endocrine Society (2019 - 2022)
- Leadership Task Force, The Endocrine Society (2015 - 2015)
- Board of Directors, Advances in Mineral Metabolism (2013 - 2016)
- Membership Enhancement Committee, The American Society for Bone and Mineral Research (2013 - 2016)
- Co-Chair, Trainee & Career Development Core Committee, The Endocrine Society (2007 - 2010)
- Ex Officio, Council, The Endocrine Society (2006 - 2010)
- Member, The American Society for Bone and Mineral Research (2005 - present)
- Member, The Endocrine Society (2003 - present)

## PROFESSIONAL EDUCATION

- Board Certification: Endocrinology, Diabetes and Metabolism, American Board of Internal Medicine (2006)
- Fellowship: Massachusetts General Hospital (2006) MA
- Residency: Brigham and Women's Hospital Harvard Medical School (2003) MA

- Medical Education: Duke University School of Medicine (2001) NC
- MD/PhD, Duke University (2001)

## Research & Scholarship

---

### CURRENT RESEARCH AND SCHOLARLY INTERESTS

Osteoporosis, a disease of fragile bones resulting in fractures, will strike 50% of women and 25% of men. As a physician scientist, my laboratory is studying stem cells in the skeleton and bone marrow to develop novel regenerative approaches to increase bone quality and strength. We are also interested in how the skeleton supports hematopoiesis, and how diseases and medications that impact bone may affect blood cell production and cancer metastasis. For more detailed descriptions of ongoing research projects in the lab, visit our website at joywulab.stanford.edu.

### CLINICAL TRIALS

- Pilot Trial of Zoledronic Acid to Prevent Bone Loss in Hematopoietic Cell Transplant Recipients, Not Recruiting

## Teaching

---

### STANFORD ADVISEES

#### Postdoctoral Faculty Sponsor

Xiyu Ge

### GRADUATE AND FELLOWSHIP PROGRAM AFFILIATIONS

- Immunology (PhD Program)

## Publications

2001; 21 (17): 6066-6070
- **Female fertility is reduced in mice lacking Ca<sub>2+</sub> calmodulin-dependent protein kinase IV** *ENDOCRINOLOGY*  
Wu, J. Y., Gonzalez-Robayna, I. J., Richards, J. S., Means, A. R.  
2000; 141 (12): 4777-4783
  - **Spermiogenesis and exchange of basic nuclear proteins are impaired in male germ cells lacking Camk4** *NATURE GENETICS*  
Wu, J. Y., Ribar, T. J., Cummings, D. E., Burton, K. A., McKnight, G. S., Means, A. R.  
2000; 25 (4): 448-452
  - **Ca<sub>2+</sub>/calmodulin-dependent protein kinase IV is expressed in spermatids and targeted to chromatin and the nuclear matrix** *JOURNAL OF BIOLOGICAL CHEMISTRY*  
Wu, J. Y., Means, A. R.  
2000; 275 (11): 7994-7999
  - **Pharmacology** *Crashing the boards: a user friendly study guide for the USMLE step 1*  
Wu, J. Y.  
Lippincott Williams and Wilkins.1999; 2: 31-47
