

## Javier Perez-Garcia

Postdoctoral Scholar, Epidemiology

### Bio

---

#### BIO

Javier Perez-Garcia is a postdoctoral scholar in the Department of Epidemiology and Population Health at Stanford University. His research has been focused on the integration of multi-omic data (e.g., genomics, epigenomics, transcriptomics, and microbiome) to identify potential biomarkers of treatment response for complex diseases like asthma. His research background includes experience both in molecular biology techniques (e.g., DNA extraction and sequencing libraries preparation) and bioinformatic analyses (e.g., processing of raw omic data, association studies at genomic scale, or multi-omic integration through machine learning and quantitative trait loci analyses). He holds a Ph.D. in Health Sciences and a B.Sc. in Pharmacy from the University of La Laguna (Spain).

#### HONORS AND AWARDS

- IMFAHE's Excellence Fellowship, International Mentoring Foundation For the Advancement of Higher Education (2021)
- Excellence award for academic performance of graduates in Health Sciences, University of La Laguna (2020)
- Extraordinary award for academic performance in the BSc of Pharmacy, University of La Laguna (2019)
- Award for undergraduate students in Health Sciences, Fundacion Privada P. i P. Pizarroso and University of La Laguna (2016 and 2018)

#### PROFESSIONAL EDUCATION

- Doctor of Philosophy, Universidad De La Laguna (2023)
- Bachelor of Science, Universidad De La Laguna (2019)
- PhD in Health Sciences, University of La Laguna , Health Sciences (2023)
- BSc in Pharmacy, University of La Laguna , Health Sciences (2019)

#### STANFORD ADVISORS

- Andres Cardenas, Postdoctoral Faculty Sponsor
