

Faith Aloboudi

Ph.D. Student in Neurosciences, admitted Autumn 2024

Bio

BIO

I am a first-year Ph.D. Neurosciences IDP Student interested in how biopsychosocial factors, like social determinants of health, impact neuropsychiatric phenotypes and disease. I hope to identify how neural circuits and social behaviors are perturbed by different environmental landscapes that challenge social group dynamics.

HONORS AND AWARDS

- Honorable Mention, NSF GRFP (2024)
