

Stanford

Richard Dasher

Adjunct Professor
East Asian Languages and Cultures

Bio

BIO

Richard Dasher has been Director of the US-Asia Technology Management Center (US-ATMC) at Stanford University since 1994. He served concurrently as the Executive Director of the Center for Integrated Systems in Stanford's School of Engineering from 1998 - 2015. His research and teaching focus on the flow of people, knowledge, and capital in innovation systems, on the impact of new technologies on industry value chains, and on open innovation management. Dr. Dasher was the first non-Japanese person ever asked to join the governance of a Japanese national university, serving as a Board Director and member of the Management Council of Tohoku University from 2004 - 2010. He has served on the Program Committee of the \$1.3 billion/year World Premier International Research Center Initiative (WPI) of Japan since its inception in 2007, and he has also served on program and review committees of other national science and technology funding programs, national research institutes, and universities in Canada, Japan, and Thailand. He is a Founding Partner of the Tokyo-based VC firm Global Hands-On Venture Capital (GHOVC), and he is an advisor to start-up companies, business accelerators, venture capital firms, and nonprofits in Silicon Valley, Japan, India, and S. Korea. Dr. Dasher received M.A. and Ph.D. degrees in Linguistics from Stanford University. Before coming to the US-ATMC, he served as board director of two small companies in Tokyo, developing international business from 1990 - 93. From 1986 - 90, he was Director of the U.S. State Department's Advanced Language and Area Training Centers in Japan and Korea that provide full-time curricula to U.S. and Commonwealth Country diplomats assigned to those countries.
