Zengxiao He

- Masters Student in Electrical Engineering, admitted Autumn 2024
- Grader ENGR 108, Electrical Engineering - Student Services

Bio

BIO

Hi! I'm Zengxiao(Xander) He, a graduate student in Electrical Engineering at Stanford University, where I focus on artificial intelligence, deep learning, and computer vision. I completed my undergraduate degree in Software Engineering in China, where I developed a passion for creating real-world applications that improve people's lives.

I'm constantly curious about the latest advancements in technology, and I enjoy exploring innovative solutions to complex problems. I also have experience as a co-founder of HealX AI, a Chinese startup focused on using AI for medical diagnostics and healthcare improvement.

I am highly intrigued by the vibrant startup ecosystem in Silicon Valley and would love to connect with anyone who shares similar interests in AI, entrepreneurship, and technology. Let's connect and explore how we can create impactful technologies together!

PERSONAL INTERESTS

Basketball, Guitar, Hiking and Cars.
