

Stanford

Zongbo Li

Postdoctoral Scholar, Health Policy

Bio

BIO

Zongbo Li, PhD, is a postdoctoral researcher at Stanford Health Policy. His research focuses on applying simulation modeling and cost-effectiveness analysis to inform policy decisions related to substance use and infectious diseases. He evaluates overdose prevention interventions, including naloxone distribution and medications for opioid use disorder, with particular attention to vulnerable populations such as people who are incarcerated. His work also encompasses modeling infectious diseases and evaluating interventions for COVID-19, HIV, and HCV. Zongbo earned his PhD in Health Services Research, Policy & Administration from the University of Minnesota.

PROFESSIONAL EDUCATION

- PhD, University of Minnesota , Health Services Research, Policy & Administration (2025)
- MPH, Yale University , Epidemiology of Microbial Diseases (2019)
- BS&BA, Peking University , Laboratory Medicine & Economics (2017)

STANFORD ADVISORS

- Marissa Reitsma, Postdoctoral Faculty Sponsor
- Joshua Salomon, Postdoctoral Research Mentor
