

Anne Liu

- Clinical Associate Professor, Pediatrics - Immunology and Allergy
- Clinical Associate Professor, Medicine - Infectious Diseases

CLINICAL OFFICES

- **Stanford Children's Health Specialty Services Sunnyvale**

1195 W Fremont Ave
Sunnyvale, CA 94087

Tel (650) 723-0290 **Fax** (650) 497-0399

- **Atherton Allergy, Asthma, and Immunodeficiency Clinic**

3351 El Camino Real Ste 201
Atherton, CA 94027

Tel (650) 723-3200 **Fax** (650) 320-9443

- **Division of Allergy and Immunology**

269 Campus Dr CCSR 3215
Stanford, CA 94305

Tel (650) 724-0293 **Fax**

- **Dept Of Otolaryngology**

801 Welch Rd
2nd Fl MC 5739
Palo Alto, CA 94304

Tel (650) 723-5281 **Fax** (650) 497-8839

Bio

BIO

Dr. Liu is a board-certified, fellowship-trained specialist in allergy/immunology and infectious disease. She is also a clinical associate professor in the Department of Medicine, Division of Infectious Diseases and the Department of Pediatrics, Division of Allergy, Immunology, and Rheumatology at Stanford University School of Medicine.

Dr. Liu treats infections in patients with compromised immune systems, whether due to a primary immune deficiency or a condition like cancer or organ transplant. She helps patients to develop tolerance to medications they are allergic to so that they can receive the best, and sometimes the only, treatments available to them. She also treats allergies to antibiotics, aspirin, NSAIDs, chemotherapy, and more. She sees patients both long term and for urgent referrals, such as in cases of perioperative anaphylaxis. Dr. Liu also helps pediatric patients manage drug and food allergies.

One of Dr. Liu's areas of focus is helping patients with allergies to antibiotics determine when they have lost an allergy, what antibiotics they can tolerate, and when to induce tolerance to an antibiotic. This not only can benefit the patient, but also have a positive public health impact, as labeling patients with a penicillin allergy may negatively affect their care and increase use of broad-spectrum antibiotics.

She collaborates closely with colleagues from other disciplines, including pulmonology, otolaryngology, oncology, cardiology, dermatology, anesthesiology, and surgery. Her key objective in working with referring physicians is to help them safely deliver the best care for their patients.

For patients and families, Dr. Liu strives to help them navigate their care journey with as much ease and dignity as possible during what may be the most challenging time of their life. Her goal is to offer patients options, even when it may appear that they have no options left.

Dr. Liu's research interests include optimizing care of patients with antibiotic allergies, including through use of decision support tools.

Dr. Liu has authored articles in the New England Journal of Medicine, Journal of Immunology, Journal of Allergy and Clinical Immunology in Practice, Clinical and Experimental Allergy, Mucosal Immunology, Diagnostic Microbiology and Infectious Disease, Science, and other publications. Dr. Liu authored the book chapter "Hypersensitivity Reactions to Monoclonal Antibodies" in Drug Allergy Testing.

Dr. Liu is certified in infectious disease by the American Board of Internal Medicine and in allergy and immunology by the American Board of Allergy and Immunology. She is also a member of the American College of Physicians, Infectious Diseases Society of America, and American Academy of Allergy, Asthma, and Immunology.

She has given presentations on antibiotic allergies, drug desensitization, and aspirin-exacerbated respiratory disease, among other topics. Dr. Liu's honors include recognition from the American Academy of Asthma, Allergy, and Immunology, the American Medical Women's Association, and the National Institutes of Health.

CLINICAL FOCUS

- Infections in Immunocompromised Hosts
- Drug Allergy and Desensitization
- Aspirin Desensitization
- Antibiotic Allergies
- Allergy and Immunology
- Immunocompromised Host

ACADEMIC APPOINTMENTS

- Clinical Associate Professor, Pediatrics - Immunology and Allergy
- Clinical Associate Professor, Medicine - Infectious Diseases
- Member, Maternal & Child Health Research Institute (MCHRI)

PROFESSIONAL EDUCATION

- Fellowship: Brigham and Women's Hospital Allergy and Immunology Fellowship (2011) MA
- Fellowship: Massachusetts General Hospital Infectious Diseases Fellowship (2011) MA
- Residency: Brigham and Women's Hospital Internal Medicine Residency (2007) MA
- Internship: Brigham and Women's Hospital Internal Medicine Residency (2005) MA

- Medical Education: UCLA David Geffen School Of Medicine Registrar (2004) CA
- Board Certification: Infectious Disease, American Board of Internal Medicine (2011)
- Board Certification: Allergy and Immunology, American Board of Allergy and Immunology (2010)

Research & Scholarship

CLINICAL TRIALS

- Bone Marrow Grafting for Leukemia and Lymphoma, Recruiting
- Presatovir in Hematopoietic Cell Transplant Recipients With Respiratory Syncytial Virus Infection of the Upper Respiratory Tract, Not Recruiting

Teaching

COURSES

2020-21

- Foundations of Clinical Medicine: PAS 201 (Aut)

2019-20

- Foundations of Clinical Medicine: PAS 201 (Aut)

2018-19

- Foundations of Clinical Medicine: PAS 201 (Aut)

2017-18

- Foundations of Clinical Medicine: PAS 201 (Aut)

Publications

PUBLICATIONS

- **Dupilumab use in recalcitrant allergic fungal rhinosinusitis** *ANNALS OF ALLERGY ASTHMA & IMMUNOLOGY*
Lo, R. M., Liu, A. Y., Valdez, T. A., Gernez, Y.
2020; 125 (5): 617–19
- **Dupilumab use in recalcitrant allergic fungal rhinosinusitis.** *Annals of allergy, asthma & immunology : official publication of the American College of Allergy, Asthma, & Immunology*
Lo, R. M., Liu, A. Y., Valdez, T. A., Gernez, Y.
2020
- **Infectious Implications of Interleukin-1, Interleukin-6, and T Helper Type 2 Inhibition.** *Infectious disease clinics of North America*
