Stanford

Eric Y Cho, MD

Clinical Assistant Professor, Urology

CLINICAL OFFICE (PRIMARY)

- **Urology Clinic in Emeryville**

  5800 Hollis St

  4th Fl

  Emeryville, CA 94608

  Tel (510) 806-2100 **Fax** (510) 806-2558

Bio

BIO

Dr. Eric Y. Cho is a board-certified, fellowship-trained urologist with Stanford Health Care and an clinical assistant professor in the Department of Urology at Stanford University School of Medicine.

Dr. Cho provides general and reconstructive urology care, including surgical and nonsurgical treatments for a wide range of conditions affecting the urinary and male reproductive systems. He treats a wide spectrum of general urology conditions, including benign prostatic hyperplasia and kidney stones, and provides diagnosis and treatment counseling for urologic cancers. In addition, he has expertise in genitourinary reconstruction related to urinary tract trauma and injury, urethral and ureteral strictures, ureteropelvic junction obstruction, and cancer survivorship challenges such as urinary incontinence or erectile dysfunction. He has expertise using minimally invasive and robotic techniques to restore function, structure, and appearance.

He excels at helping patients understand and navigate their care, which may involve multiple specialists. He also prioritizes shared decision-making with each patient to deliver care that supports their treatment goals and quality of life.

Dr. Cho's research focuses on developing and evaluating innovative surgical techniques in reconstructive urology. He has studied robotic approaches to ureteral reconstruction and prostatectomy, as well as patient outcomes after surgery. He continues to pursue research aiming to understand how disease develops and how to continually improve patient outcomes with and without surgery.

Dr. Cho has published his findings in leading peer-reviewed journals and has shared research findings at regional and national urologic meetings. He also participates in international medical missions to serve communities that lack access to reconstructive urologic surgery and care.

Dr. Cho is a member of the American Urologic Association (AUA), Society of Genitourinary Reconstructive Surgeons (GURS), and Western Section of the AUA (WSAUA).

CLINICAL FOCUS

- Urology

ACADEMIC APPOINTMENTS

- Clinical Assistant Professor, Urology

HONORS AND AWARDS

- Summer Genetics Scholar Program, American College of Medical Genetics and Genomics
- John Franklin Huber Award in Anatomy, Lewis Katz School of Medicine, Temple University
- A. Richard Kendall, MD, Award in Urology, Lewis Katz School of Medicine, Temple University

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, WSAUA (2024 - present)
- Member, GURS (2025 - present)
- Member, AUA (2016 - present)

PROFESSIONAL EDUCATION

- Board Certification: Urology, American Board of Urology (2025)
- Fellowship: University of California San Diego Medical Center (2023) CA
- Residency: Temple University Urology Residency Program (2022) PA
- Internship: Temple University Hospital Dept of Surgery (2018) PA
- Medical Education: Temple University Hospital (2017) PA
