CURRENT ROLE AT STANFORD

Primary role at Stanford is to support the Strategic Plan for Research in the Department of Emergency Medicine.

Goals include building research infrastructure to support all EMed investigators, leveraging the strength of Stanford University to produce high-impact and innovative emergency care research, and supporting the efforts to become a national leader in academic emergency medicine research.

Also involved with supporting the efforts of the Twin Registry at Stanford - a valuable resource for research into the influences of genetics on a variety of traits and conditions.

EDUCATION AND CERTIFICATIONS

- B.A., University of California, Santa Barbara , Biology (1985)
- M.A., San Jose State University , Health Science (1992)
