Stanford

Shawn Carrier

Masters Student in Civil and Environmental Engineering, admitted Autumn 2026

Resume available Online

Bio

BIO

Personal Information: I am from Levis, Quebec, Canada. I am fluent in English and French. I know the basics of Spanish, however I am not fully fluent in this language.

Academic History: I successfully completed and passed the FE Civil Exam in May 2026. I graduated at the top of my civil engineering class at the University of New Brunswick with a Bachelor's of Science in Engineering. During this degree, I received 20 academic awards excluding my NSERC USRAs and my Dean's List awards which I received every year.

Undergraduate Research Work: I spent two summers working with UNB's Smart Structures Research Group. Over these two terms, I was awarded two NSERC USRA awards. My main focus within the group was to program a MATLAB app to visualize and label accelerometer and strain sensor data from an instrumented bridge. For more information about my research work (including pictures displaying this app), please refer to my resume which is linked to this page.

EDUCATION AND CERTIFICATIONS

- FE Civil Exam Passed, NCEES (2026)
- BSE, University of New Brunswick , Civil Engineering (2026)
