Sejal Parekh

Postdoctoral Scholar, Biomedical Ethics

 Curriculum Vitae available Online

Bio

BIO

I'm a pediatrician interested in social justice and medical communication. After undergrad and medical school at Stanford, I went to UCSD for pediatrics residency. In San Diego, I volunteered in migrant clinics. After residency, I have worked in a rural hospital, urban FQHC clinic, suburban county hospital, and private practice. Now, I am back at Stanford as a Health Equity Media Fellow through the Center of Biomedical Ethics.
