### Bio

---

#### BIO

Dr. Blaschke is Professor of Medicine and Molecular Pharmacology (Emeritus) at Stanford University, Adjunct Professor of Bioengineering and Therapeutic Sciences at UCSF and Adjunct Professor of Medicine at Indiana University. He joined the faculty at Stanford University School of Medicine in 1974. From November 2012 through 2015 Dr. Blaschke was a Senior Program Officer/Senior Advisor at the Bill and Melinda Gates Foundation and was a consultant to the BMGF. Dr. Blaschke was a member of the AIDS Clinical Trials Group and served as chair of the Pharmacology Committee. His research has focused on sources of variability in drug response. Studies of variability have emphasized modeling PK/PD relationships. His recent clinical efforts are directed at improving patient adherence in TB and other chronic diseases. Dr. Blaschke has over 180 original publications in peer reviewed journals. He is an Associate Editor of the Annual Review of Pharmacology and Toxicology.

#### ACADEMIC APPOINTMENTS

- Emeritus Faculty, Acad Council, Medicine - Clinical Pharmacology
- Member, Cardiovascular Institute

#### ADMINISTRATIVE APPOINTMENTS

- Faculty Fellow, Stanford Center for Innovation in Global Health, (2015- present)
- Assistant Dean for Medical Student Advising, Stanford University School of Medicine, (2006-2012)
- Associate Dean for Medical Student Advising, Stanford University School of Medicine, (2002-2006)

#### HONORS AND AWARDS

- Henry J. Kaiser Award for Outstanding Contributions to Medical Education, Stanford University School of Medicine (1999)
- Rawls-Palmer Progress in Medicine Lecture and Award, American Society for Clinical Pharmacology and Therapeutics (2002)
- Honorary Fellowship, American College of Clinical Pharmacology (2004)
- Henry W. Elliott Distinguished Service Award, American Society for Clinical Pharmacology and Therapeutics (ASCPT) (2006)
- Oscar B. Hunter Award, American Society for Clinical Pharmacology and Therapeutics (ASCPT) (2007)

## PROFESSIONAL EDUCATION

- B.S., University of Denver , Honors Program, Mathematics (1964)
- M.D., Columbia University, P&S , Medicine (1968)

## COMMUNITY AND INTERNATIONAL WORK

- Consultant, Worldwide
- AMPATH Program, Eldoret, Kenya

## Research & Scholarship

---

### CURRENT RESEARCH AND SCHOLARLY INTERESTS

My ongoing Stanford research activities involve studies on the clinical pharmacology of drugs used in HIV-infected patients.

A focus of my laboratory's efforts in investigating drugs used in HIV-infected patients is to optimize the individual benefit/risk of pharmacotherapy of HIV or opportunistic infections by discovering and quantifying the pharmacokinetics and pharmacodynamics (PK/PD) of drugs used in such therapy; i.e., the distribution of individual-specific dose-concentration-effect relationships in the population. My laboratory has a special interest in understanding the relationships between antiviral drug exposure and virologic and toxicological responses. In the past this has lead to studies examining drug-taking behavior in these patients, since exposure is a function of both individual variability in pharmacokinetics and individual patterns of drug-taking behavior. At the present time, my interests in HIV are in the access and quality of antiretroviral drugs for patients from less developed countries. The use of substandard drugs carries a high risk of promoting drug resistant variants of HIV, which could have widespread consequences over the long term. Another interest is drug-drug interactions between antiretroviral drugs and drugs used to treat opportunistic infections, in particular drugs used to treat tuberculosis.

## Teaching

---

### GRADUATE AND FELLOWSHIP PROGRAM AFFILIATIONS

- Chemical and Systems Biology (Phd Program)

## Publications

---

### PUBLICATIONS

- **Introduction to the Theme "Development of New Drugs: Moving from the Bench to Bedside and Improved Patient Care".** *Annual review of pharmacology and toxicology*  
Blaschke, T. F., Insel, P. A., Amara, S. G., Meyer, U. A.  
2022
- **The World Health Organization Prequalification Program and Clinical Pharmacology in 2030.** *Clinical pharmacology and therapeutics*  
Blaschke, T. F., Lumpkin, M., Hartman, D.  
2019
- **Wirelessly observed therapy compared to directly observed therapy to confirm and support tuberculosis treatment adherence: A randomized controlled trial.** *PLoS medicine*  
Browne, S. H., Umlauf, A. n., Tucker, A. J., Low, J. n., Moser, K. n., Gonzalez Garcia, J. n., Peloquin, C. A., Blaschke, T. n., Vaida, F. n., Benson, C. A.  
2019; 16 (10): e1002891
- **A systematic evaluation of effect of adherence patterns on the sample size and power of a clinical study.** *CPT: pharmacometrics & systems pharmacology*  
Mallayamy, S., Chaturvedula, A., Blaschke, T., Fossler, M. J.  
2018

- **Introduction to the Theme "New Approaches for Studying Drug and Toxicant Action: Applications to Drug Discovery and Development"** *ANNUAL REVIEW OF PHARMACOLOGY AND TOXICOLOGY, VOL 58*  
Insel, P. A., Amara, S. G., Blaschke, T. F., Meyer, U. A., Insel, P. A.  
2018; 58: 33–36
- **Improving antiretroviral therapy adherence in resource-limited settings at scale: a discussion of interventions and recommendations** *JOURNAL OF THE INTERNATIONAL AIDS SOCIETY*  
Haberer, J. E., Sabin, L., Amico, K. R., Orrell, C., Galarraga, O., Tsai, A. C., Vreeman, R. C., Wilson, I., Sam-Agudu, N. A., Blaschke, T. F., Vrijens, B., Mellins, C. A., Remien, et al  
2017; 20
- **Improving antiretroviral therapy adherence in resource-limited settings at scale: a discussion of interventions and recommendations.** *Journal of the International AIDS Society*  
Haberer, J. E., Sabin, L., Amico, K. R., Orrell, C., Galarraga, O., Tsai, A. C., Vreeman, R. C., Wilson, I., Sam-Agudu, N. A., Blaschke, T. F., Vrijens, B., Mellins, C. A., Remien, et al
