Bio

BIO

My students and I devise new algorithms to improve the imaging of active and passive seismic data. Images obtained from seismic data are the main source of information on the structural and stratigraphic complexities in Earth's subsurface and on many subsurface dynamic processes. These images are constructed by processing seismic wavefields recorded at the Earth surface and generated by either active-source experiments, or by natural (ocean waves) and anthropogenic (vehicle traffic) sources. Because our datasets are huge, and wavefield propagation needs to be accurately modeled to achieve high-resolution imaging, we need to harness the power of latest computational hardware to test our methods on field data. Therefore, the mapping of imaging algorithms into high-performance architecture is an essential component of our research. Fiber-optic seismic recording holds the promise of enabling cost-effective continuous seismic monitoring at large scale (e.g. cities, unconventional basins). To achieve first-hand experience with this new technology my research group has been continuously recording data under Stanford campus for more than two years using a 2.5 km long fiber-optic cable and started devising innovative algorithms to process and image these new, but challenging, seismic datasets

ACADEMIC APPOINTMENTS

- Professor, Geophysics
- Member, Institute for Computational and Mathematical Engineering (ICME)

ADMINISTRATIVE APPOINTMENTS

- Chair of the Geophysics Department, Stanford University, (2019- present)
- Director, Stanford Exploration Project, Stanford University, (1998- present)
- Co-Director, Stanford Earth Sciences Algorithms and Architectures Initiative, Stanford University, (2010- present)
- Program Director, Computational Geoscience Degree Program, Stanford University, (2011- present)
- Member, Ad-hoc Faculty Committee on the Stanford Research Computing Facility, Stanford University, (2011-2012)
- Co-Director, Center for Computational Earth and Environmental Sciences, Stanford University, (2010-2019)
- Member, Stanford Senate Committee on Research, (2009-2010)
- Member, Earth Sciences Council, Stanford University, (2007-2010)
- Member, Stanford Senate Committee on Research, Stanford University, (2007-2008)
- Member, School of Earth Sciences Web Advisory Committee, Stanford University, (2006-2007)
- Member of the Faculty Advisory Panel of the Stanford CEES, Stanford University, (2005- present)
- Member of the Academic Oversight Committee of the Graduate Program in EEES, Stanford University, (2005-2009)
- Member of the School of Earth Sciences Academic Program (Graduate) Committee, Stanford University, (2004-2005)
- Member of the School of Earth Sciences Computational Initiative Committee, Stanford University, (2004-2005)

- Instructor at the Mathematical Geophysics (Summer) School, Stanford University, (2002-2002)
- Member of Teaching and Information Technology Geophysics Department Committee, Stanford University, (2000-2003)
- Organizing Committee, Stanford Mathematical Geophysics (Summer) School, Stanford University, (1998-2003)
- Instructor at the Mathematical Geophysics (Summer) School, Stanford University, (1998-1998)

HONORS AND AWARDS

- Honorable Mention award for Best Paper Presented at the 2019 SEG Annual Meeting (co-author), Society of Exploration Geophysicists (2019)
- Honorable mention for Best Paper in Geophysics from SEG (co-author), Society of Exploration Geophysicists (2016)
- Honorable mention for Best Paper in Geophysics from SEG (co-author), Society of Exploration Geophysicists (2009)
- Distinguished Instructor Short Course, Society of Exploration Geophysicists and the European Association of Geoscientists and Engineers (2007)
- Louis Cagniard Award for the best poster presentation (co-author), European Association of Geoscientists and Engineers (2005)
- Reginald Fessenden Award, Society of Exploration Geophysicists (2004)
- Outstanding Contribution SEG 65th Annual Meeting, Society of Exploration Geophysicists (1996)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Invited speaker, Executive Exploration Forum, Schlumberger, Montecarlo, Monaco (2012 - 2012)
- Invited speaker, Workshop, Inversion-based High Resolution Imaging of Reservoirs, Meeting of Society of Exploration Geophysicists (2012 - 2012)
- Short Course Instructor, Pemex, Villahermosa, Mexico (2012 - 2012)
- Short Course Instructor, Ion Geophysical, Houston, Texas (2012 - 2012)
- Short Course Instructor, TGS; Houston, Texas (2012 - 2012)
- Short Course Instructor, Pemex, Villahermosa, Mexico (2011 - 2011)
- Short Course Instructor, Saudi Aramco, Dhaharain, Saudi Arabia (2011 - 2011)
- Short Course Instructor, Society of Exploration Geophysicists - Continuing Education , New Orleans, Louisiana (2011 - 2011)
- Short Course Instructor, WesternGeco-Schlumberger - Area Geophysicist University , Houston, Texas (2011 - 2011)
- Convenor, SEG (Summer) Research Workshop: Subsalt Exploration and Development: Four years later, what's new in acquisition, imaging and interpretation? (2010 - 2010)
- Invited speaker, Workshop: Full wave-equation methods for complex imaging challenges, Meeting of Society of Exploration Geophysicists (2009 - 2009)
- Invited speaker, Workshop: Reverse-Time Migration- Problems and Promises, Meeting of Society of Exploration Geophysicists (2009 - 2009)
- Keynote speaker, Research Workshop: SubSalt Imaging - focus on azimuth, European Association of Geoscientists and Engineers (2009 - 2009)
- Invited speaker, Workshop: Computing trends in O&G and Earth Sciences, Meeting of European Association of Geoscientists and Engineers (2008 - 2008)
- Invited speaker, Workshop: Reducing Cycle Time from seismic acquisition to interpretation, Meeting of European Association of Geoscientists and Engineers (2008 - 2008)
- Keynote speaker, Workshop: Interpreting Depth-Imaged Data – Case studies, examples, and pitfalls from the interpreters, Meeting of Society of Exploration Geophysicists (2008 - 2008)
- Member, Editorial Board of the Journal on Imaging Sciences published by the Society for Industrial and Applied Mathematics (2007 - present)
- Short Course Instructor, Saudi Aramco, Dhaharain, Saudi Arabia (2007 - 2007)
- Short Course Instructor, Saudi Aramco, Dhaharain, Saudi Arabia (2006 - 2006)
- Keynote speaker, Seismic Imaging Symposium, Veritas-DGC, Calgary, Canada (2006 - 2006)
- Chairman, SEG/EAGE (Summer) Research Workshop: Subsalt Exploration & Development: Imaging, interpretation & drilling- What have we learned (2006 - 2006)
- Distinguished Scientist Lecture, BP Technology Center, Houston, Texas (2005 - 2005)
- Invited speaker, Workshop on Computational Geosciences, Colorado School of Mines (2005 - 2005)
- Invited speaker, Department seminar at Rice University (2005 - 2005)

- Short Course Instructor, PDVSA, Puerto La Cruz, Venezuela (2005 - 2005)
- Invited speaker Workshop, Geophysical Imaging, Rensselaer Polytechnic Institute (2005 - 2005)
- Invited speaker Workshop, Estimation of accurate velocity macro-models in complex structures, Meeting of European Association of Geoscientists and Engineers (2004 - 2004)
- Invited speaker, International Conference Scientific Computing In Petroleum Industry, Beijing, China (2004 - 2004)
- Invited speaker, Workshop, Estimation of accurate velocity macro-models in complex structures, Meeting of European Association of Geoscientists and Engineers (2004 - 2004)
- Keynote speaker, Salt Tectonics Symposium at ExxonMobil Exploration Company, Houston, Texas (2004 - 2004)
- Convenor, EAGE-SEG (Summer) Research Workshop: Processing and imaging of seismic data using explicit or implicit velocity model information (2003 - 2003)
- Invited speaker, 12th International Workshop of IUGG's Commission on Controlled-Source Seismology (2003 - 2003)
- Convenor, SEG Workshop Passive Seismic Imaging (2003 - 2003)
- Invited speaker, Geophysical Society of Houston (2002 - 2002)
- Invited speaker, Special session: Depth Imaging, Meeting of Canadian Society of Exploration Geophysicists (2002 - 2002)
- Invited speaker, Interactive session: Wave equation versus ray based methods, Meeting of European Association of Geoscientists and Engineers (2002 - 2002)
- Invited speaker, Geophysical Society of Houston (2001 - 2001)
- Invited speaker, Southeastern Geophysical Society (2001 - 2001)
- Invited speaker, Heiland Lecture at Colorado School of Mines (2001 - 2001)
- Convenor, SEG Workshop Seismic Imaging beyond Kirchhoff (2001 - 2001)
- Convenor, SEG Workshop Changing the way we work: e-business & the Internet (2001 - 2001)
- Invited speaker, International seminar on seismic migration and inversion, Seoul National University, South Korea. (2001 - 2001)
- Invited speaker, Incorporated Research Institutions for Seismology (IRIS) Workshop (2000 - 2000)
- Invited speaker, Workshop: Prestack Depth Imaging: Prospects and Challenges, Meeting of European Association of Geoscientists and Engineers (2000 - 2000)
- Invited Speaker, New Approaches to Seismic Imaging Workshop, 6th International Congress of the Brazilian Geophysical Society (1999 - 1999)
- Short Course Instructor, Daqing, China (1998 - 1998)
- Convenor, EAGE-SEG (Summer) Research Workshop Depth Imaging of Seismic Reservoir Attributes (1998 - 1998)
- Member, Research Committee of the Society of Exploration Geophysicists Research Committee (1996 - present)

PROFESSIONAL EDUCATION

- Ph.D, Stanford University , Geophysics (1990)
- M.S., Stanford University , Geophysics (1987)
- M.Sc., Politecnico di Milano , Electrical Engineering (1984)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Research

My students and I devise new algorithms to improve the imaging of reflection seismic data. Images obtained from seismic data are the main source of information on the structural and stratigraphic complexities in Earth's subsurface. These images are constructed by processing seismic wavefields recorded at the surface of Earth and generated by either active-source experiments (reflection data), or by far-away earthquakes (teleseismic data). The high-resolution and fidelity of 3-D reflection-seismic

images enables oil companies to drill with high accuracy for hydrocarbon reservoirs that are buried under two kilometers of water and up to 15 kilometers of sediments and hard rock. To achieve this technological feat, the recorded data must be processed employing advanced mathematical algorithms that harness the power of huge computational resources. To demonstrate the advantages of our new methods, we process 3D field data on our parallel cluster running several hundreds of processors.

Teaching

I teach a course on seismic imaging for graduate students in geophysics and in the other departments of the School of Earth Sciences. I run a research graduate seminar every quarter of the year. This year I will be teaching a one-day short course in 30 cities around the world as the SEG/EAGE Distinguished Instructor Short Course, the most important educational outreach program of these two societies.

Professional Activities

2007 SEG/EAGE Distinguished Instructor Short Course (2007); co-director, Stanford Exploration Project (1998-present); founding member, Editorial Board of SIAM Journal on Imaging Sciences (2007-present); member, SEG Research Committee (1996-present); chairman, SEG/EAGE Summer Research Workshop (2006)

Teaching

COURSES

2019-20

- 3-D Seismic Imaging: GEOPHYS 280 (Spr)
- Basic Earth Imaging: GEOPHYS 188, GEOPHYS 210 (Aut)
- Frontiers of Geophysical Research at Stanford: GEOPHYS 101, GEOPHYS 201 (Aut)
- Reflection Seismology: GEOPHYS 385A (Aut, Win, Spr, Sum)

2018-19

- 3-D Seismic Imaging: GEOPHYS 280 (Spr)
- Basic Earth Imaging: GEOPHYS 188, GEOPHYS 210 (Aut)
- Computational Geosciences Seminar: EARTH 310 (Win)
- Know Your Planet: Big Earth: EARTH 1B (Win)
- Reflection Seismology: GEOPHYS 385A (Aut, Win, Spr, Sum)

2017-18

- 3-D Seismic Imaging: GEOPHYS 280 (Spr)
- Basic Earth Imaging: GEOPHYS 188, GEOPHYS 210 (Aut)
- Computational Geosciences Seminar: EARTH 310 (Win)
- Reflection Seismology: GEOPHYS 385A (Aut, Win, Spr, Sum)

2016-17

- 3-D Seismic Imaging: GEOPHYS 280 (Spr)
- Basic Earth Imaging: GEOPHYS 188, GEOPHYS 210 (Aut)
- Reflection Seismology: GEOPHYS 385A (Aut, Win, Spr, Sum)

STANFORD ADVISEES

Doctoral Dissertation Reader (AC)

Anshuman Pradhan

Postdoctoral Faculty Sponsor

Ariel Lellouch, Nate Lindsey

Doctoral Dissertation Advisor (AC)

Milad Bader, Alejandro Cabrales-Vargas, Julio Frigerio, Min Jun Park, Rahul Sarkar, Siyuan Yuan

Master's Program Advisor

Milad Bader

Doctoral (Program)

Rustam Akhmadiev, Guillaume Barnier, Ettore Biondi, Stuart Farris, Fantine Huot, Joseph Jennings
