

Norman Sleep

Professor of Geophysics

Bio

BIO

I apply heat and mass transfer to physical processes within the Earth. I maintain interest in geodynamics and its applications to the modern Earth and conditions for the origin of life on the young Earth and Mars. I am concentrating on the microphysics of friction and nonlinear seismology. I am currently applying the results to nonlinear attenuation and ground damage by strong seismic waves. I have developed a self-consistent rheology for faults that are dynamically weakened by heating of real contact asperities. I am developing flow-law alternatives to the traditional geotechnical approach with Masing Rules and testing it with real data. I am also examining the records from the Denali earthquake for interaction of high frequency S waves with the low-frequency near-field velocity pulse

ACADEMIC APPOINTMENTS

- Professor, Geophysics

ADMINISTRATIVE APPOINTMENTS

- Assistant Professor of Geophysics, Northwestern University, (1973-1979)
- Postdoctoral Research Associate, Massachusetts Institute of Technology, (1973-1973)
- Associate Professor of Geophysics and Geology, Stanford University, (1979-1984)
- Professor of Geophysics and Geology, Stanford University, (1984-1993)
- Professor of Geophysics, Stanford University, (1993- present)

HONORS AND AWARDS

- Fellow, American Geophysical Union (1980)
- James B. Macelwane Award, American Geophysical Union (1980)
- Fellow, Geological Society of America (1984)
- George P. Woollard Award, Geological Society of America (1991)
- Fellow, American Association for the Advancement of Science (1993)
- Wegener Medal, European Union of Geosciences (1997)
- Walter H. Bucher Medal, American Geophysical Union (1998)
- Member, National Academy of Sciences (1999)
- Wollaston Medal, Geological Society of London (2008)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Panel member, National Science Foundation (2011 - 2011)

- Member, Committee on Earth Resources, National Research Council (2009 - present)
- Senior editor, *Astrobiology* (2004 - present)
- Chancellor's invited speaker, Louisiana State University (2000 - 2000)
- Chair of Reading Committees for Ph.D. orals in Engineering, Physics, Linguistics, Education, Geological and Environmental Sciences, and Geophysics, Stanford University (1992 - present)
- Outside Reviewer for Proposals from NSF, NASA, USGS, Petroleum Research Fund, and funding agencies in Israel, Australia, Czech Republic, France, Canada and the U.K., NSF, NASA, USGS, Petroleum Research Fund, and others (1992 - present)
- Associate editor, *Earth and Planetary Science Letters* (1989 - present)
- Member, Earth Sciences Library Committee, Stanford University (1984 - 2001)
- Associate Editor, *Tectonophysics* (1981 - present)

PROFESSIONAL EDUCATION

- Ph.D., Massachusetts Institute of Technology , Geophysics (1973)
- M.S., Massachusetts Institute of Technology , Geophysics (1969)
- B.S., Michigan State University , Geology and Mathematics (1967)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Research

I apply heat and mass transfer to physical processes within the Earth. I am currently studying convection at the base of the lithosphere and the interaction of the lithosphere with mantle plume material. Hot plume material locally thins the lithosphere and ponds within preexisting regions of thin lithosphere. I am also investigating the microphysics of friction. I am currently applying the results to nonlinear attenuation and ground damage by strong seismic waves. I am currently considering pre-photosynthetic sources of energy for life (like hydrogen from serpentine and methanogenesis) and the effects of photosynthetic ecology on surface and tectonic processes.

Teaching

I will teach freshman seminar in winter 2015. I am actively involved in the crustal, stress, and earthquake seminars.

Professional Activities

2008 Wollaston Medal, Geological Society of London; Election, National Academy of Sciences (1999); Walter H. Bucher Medal, American Geophysical Union (1998); Wegener Medal, European Union of Geosciences (1997); fellow, American Association for the Advancement of Science (1993); George P. Woollard Award, Geological Society of America (1991); fellow, Geological Society of America (1984); James B. Macelwane Award (1980); fellow, American Geophysical Union (1980)

Teaching

COURSES

2019-20

- Tectonics: GEOPHYS 385E (Aut, Spr, Sum)

2018-19

- Tectonics: GEOPHYS 385E (Aut, Spr, Sum)

2017-18

- Senior Seminar: Issues in Earth Sciences: GEOPHYS 199, GS 150 (Aut)
- Tectonics: GEOPHYS 385E (Aut, Spr, Sum)

2016-17

- Tectonics: GEOPHYS 385E (Aut, Spr, Sum)

STANFORD ADVISEES

Orals Chair

James Black, Chris Overstreet
