Bio

BIO

Professor Goldman is an educational anthropologist interested in the idea that learning takes place when students are actively engaged with each other, their teachers, and others in conversations, activities, content, and technologies. She is very interested in the power of real-world contexts to drive learning, and researches how people learn in and out of school. Goldman's work focuses on creating opportunities for rich STEM learning, and for understanding how design thinking and technologies can create access and be transformational. Current work includes broadening participation in STEM via family activities, design-based engagements, and through empathy work with scientists doing outreach.

ACADEMIC APPOINTMENTS

- Professor Emeritus, Graduate School of Education
- Member, Maternal & Child Health Research Institute (MCHRI)

ADMINISTRATIVE APPOINTMENTS

- Professor (Teaching) of Mechanical Engineering (by courtesy), Stanford University, (2006- present)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Elementary and Middle School Teacher, Teacher (1973 - 1977)
- Director, Public Schools Project, College for Human Services (1983 - 1985)
- Research Scientist, Center for Children and Technology, Bank Street College of Education (1985 - 1989)
- Director of School and Community Programs and Senior Research Scientist, Institute for Research on Learning (1989 - 2000)

PROFESSIONAL EDUCATION

- BS, State University of New York at Oneonta , Elementary Education and Educational Psychology (1973)
- MS, Florida International University , Urban School Administration and Supervision (1978)
- MEd, Columbia University , Family and Community Education (1979)
- EdD, Columbia University , Family and Community Education (1982)

COMMUNITY AND INTERNATIONAL WORK

- SKY Labo, Japan and US
- D.loft STEM Learning
- English Learners and Design Thinking
- REDlab
- STEM Ambassador Program
- Playful Family Science

Research & Scholarship

RESEARCH INTERESTS

- Curriculum and Instruction
- Elementary Education
- Equity in Education
- Gender Issues
- Math Education
- Parents and Family Issues
- Research Methods
- Science Education
- Technology and Education

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Professor Goldman is an educational anthropologist interested in the idea that learning takes place when students are actively engaged with each other, their teachers, and others in conversations, activities, content, and technologies. She is very interested in the power of real-world contexts to drive learning, and researches how people learn in and out of school. Goldman's work focuses on creating opportunities for rich STEM learning, and for understanding how design thinking and technologies can create access and be transformational. Current work includes bringing broadening participation in STEM via family activities, design-based engagements, and through empathy work with scientists doing outreach.
