## Steve Jones

Director, High Performance Computing Center, and Research Scientist, Mechanical Engineering - Flow Physics and Computation

### CONTACT INFORMATION

- **Administrator**

Ria Tan - Administrative Associate

**Email** riatan@stanford.edu

### Bio

---

#### BIO

Steve Jones currently runs the High Performance Computing Center at Stanford University, primarily supporting federally-funded sponsored research. Jones is the co-chair of the HPC-AI Advisory Council Conference, has designed and administered numerous Top 500 Supercomputers, speaks regularly about the management of High Performance Computing Clusters, and offers numerous graduate-level, continuing education, and HPC training courses. He is passionate about the small-to-medium hpc cluster enterprise and enabling others in the space to leverage well-established free and open-source solutions to support their environments.

#### CURRENT ROLE AT STANFORD

Director, High Performance Computing Center, and Research Scientist, Flow Physics and Computational Engineering

### Teaching

---

#### COURSES

##### 2023-24

- HPC-AI Summer Seminar Series: ME 344S (Sum)
- Introduction to High Performance Computing: ME 344 (Sum)

##### 2022-23

- HPC-AI Summer Seminar Series: ME 344S (Sum)
- Introduction to High Performance Computing: ME 344 (Sum)

##### 2021-22

- HPC-AI Summer Seminar Series: ME 344S (Sum)
- Introduction to High Performance Computing: ME 344 (Sum)
