Bio

BIO

Susan M. Swetter, M.D., is Professor of Dermatology, Assistant Chief of the Dermatology Service at the VA Palo Alto, Director of the Pigmented Lesion and Melanoma Program, and Physician Leader of the Cancer Care Program in Cutaneous Oncology at Stanford University Medical Center and Cancer Institute. Her research interests encompass both primary and secondary melanoma prevention, including therapeutic prevention strategies in patients with atypical nevi and targeted screening/education of high-risk groups for improved melanoma awareness and early detection. Her clinical interests are in cutaneous oncology (focused on pigmented lesions/melanoma) and adult general medical dermatology (at VA Palo Alto). Dr. Swetter joined the Stanford Dermatology faculty in 1994 following dermatology residency/chief residency at Stanford and internal medicine internship at the University of California, San Francisco. Dr. Swetter received her MD from the University of Pennsylvania School of Medicine and her BA with Distinction from the University of Virginia.

CLINICAL FOCUS

- Cancer > Cutaneous (Dermatologic) Oncology
- Pigmented Skin Lesions
- Melanoma
- Skin Cancer
- Basal/ Squamous Cell Carcinomas - VA Dermatology
- Dermatology
- Cutaneous Oncology
- Basal / Squamous Cell Carcinomas - Dermatology
- Pigmented Lesion and Melanoma Program
- Melanoma - Dermatology
- Pigmented Skin Lesions - Dermatology
- Pigmented Skin Lesions - Medical Oncology
- Skin Cancer - Dermatology

ACADEMIC APPOINTMENTS

- Professor - Med Center Line, Dermatology
- Member, Stanford Cancer Institute

ADMINISTRATIVE APPOINTMENTS

- Director, Pigmented Lesion and Melanoma Program, Stanford Cancer Institute, (1995- present)
- Member, Melanoma/Skin Cancer Committee, American Academy of Dermatology, (1999-2009)

- Co-founder and Co-Chair, Melanoma Prevention Working Group, Cooperative Oncology Intergroup/National Clinical Trials Network, (2002- present)
- Medical Advisory Board, AIM at Melanoma, (2005- present)
- Member, Scientific Programs Committee, Melanoma Section, American Society of Clinical Oncology, (2006-2008)
- Member, Melanoma Clinical Guidelines Task Force, American Academy of Dermatology, (2006-2012)
- Member, Board of Directors, American Cancer Society, Santa Clara County Unit, (2007- present)
- Member, Melanoma Panel, National Comprehensive Cancer Network, (2007- present)
- President, Board of Directors, American Cancer Society, Santa Clara County Unit, (2009-2011)
- Physician Leader, Cancer Care Program in Cutaneous Oncology, Stanford Cancer Institute, (2012- present)
- Medical Advisory Panel, Melanoma Research Alliance, (2013- present)
- Advisory Board, Stanford Women and Sex Differences in Medicine (WSDM) Center, (2014-2016)
- Chair, Melanoma Work Group, Clinical Practice Guidelines Update, American Academy of Dermatology, (2015-2019)
- Inaugural Member (Affiliate), Stanford Center for Population Health Sciences, (2015- present)
- Member, Council of Cancer Leaders, Stanford Comprehensive Cancer Center, (2015- present)
- Founding Member, War on Melanoma™ Federation of States Partnership, (2016- present)
- Cutaneous Melanoma Workgroup, International Collaboration on Cancer Reporting (ICCR) Initiative, (2018-2019)
- Founder and Statewide Leader, Wipe Out Melanoma - California, (2018- present)
- Co-Leader, UV Exposure/Melanoma Advisory Subcommittee, California's Comprehensive Cancer Control Plan, 2021-2025, California Dialogue on Cancer (CDOC), (2019- present)
- Dermatology Council, Melanoma Research Alliance, (2019- present)
- Chair, Melanoma Panel, National Comprehensive Cancer Network, (2020- present)

HONORS AND AWARDS

- Nominated, Kaiser Award for Clinical Teaching, Stanford University School of Medicine (2003, 2004, 2005)
- Nominated, Franklin G. Ebaugh, Jr. Award (outstanding dedication to advising medical students), Stanford University School of Medicine (1999, 2001, 2004, 2009)
- Recognition for Excellence in Teaching, Stanford University School of Medicine (2004, 2009)
- President's Volunteer Service Award, President's Council on Service & Civic Participation, Corporation for National & Community Service (2007)
- Leadership Award, Melanoma Care Coalition (2007)
- Elected Member, American Dermatological Association (2011)
- Humanitarian Award Recipient, Melanoma Research Foundation (2012)

PROFESSIONAL EDUCATION

- Medical Education: Perelman School of Medicine University of Pennsylvania (1990) PA
- Residency: Stanford University School of Medicine Registrar (1994) CA
- Board Certification: Dermatology, American Board of Dermatology (1994)
- Chief Residency, Stanford University , Dermatology (1994)
- Dermatology Residency, Stanford University , Dermatology (1994)
- Internship: UCSF Medical Center (1991) CA
- Internship, Univ. of California, San Francisco , Internal Medicine (1991)
- MD, University of Pennsylvania , Medicine (1990)
- BA with Distinction, University of Virginia , Echols Interdisciplinary Studies (Biology/English) (1986)

COMMUNITY AND INTERNATIONAL WORK

- Philo Health Medical Relief Trips to Bohol, Philippines, Bohol, Philippines
- President, Board of Directors, American Cancer Society Santa Clara County Unit, Campbell, CA
- Program Director, Stanford Skin Cancer Screening Program, 1995-2011, Stanford Medicine Outpatient Clinics

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Dr. Susan Swetter has directed the Pigmented Lesion and Melanoma Programs at Stanford University Medical Center and Cancer Institute and VA Palo Alto Health Care System (VAPAHCS) since 1995. Dr. Swetter's research focuses on precision public health as it relates to primary and secondary prevention strategies in melanoma. She is currently leading the Wipe Out Melanoma - California statewide initiative targeting high-risk populations for early detection through community engagement and novel technologies, including artificial intelligence and machine learning.

Dr. Swetter has published over 200 scholarly articles, reviews, and textbook chapters. She has served for over a decade on the National Comprehensive Cancer Network (NCCN) Melanoma Panel and American Academy of Dermatology (AAD) Melanoma Work Group to establish clinical practice guidelines for melanoma in the US. She chaired the most recent (2019) AAD melanoma guidelines update and was appointed Chair of the NCCN Melanoma Panel in 2020.

Dr. Swetter serves as the dermatologist liaison to the Eastern Cooperative Oncology Group (ECOG-ACRIN) Melanoma Committee and is Co-Chair of the national Melanoma Prevention Working Group - a national research collaboration among academic dermatologists, pathologists, oncologists, surgeons, and epidemiologists who are dedicated to melanoma control, including screening and therapeutic prevention - comprised of Intergroup/NCTN (ECOG, SWOG, CALGB) melanoma centers in the US.

Dr. Swetter's research interests include clinical and translational studies of melanoma epidemiology, prognostic factors, screening and therapeutic prevention (formerly termed chemoprevention) in high-risk groups. She is the Stanford Principal Investigator (PI) for the NCI/University of Arizona Early Phase Cancer Chemoprevention Consortium for skin cancer research and co-led one of the first randomized trials of therapeutic prevention for melanoma in individuals with atypical nevi. She also served as VAPAHCS PI for the VA Cooperative Studies Program Keratinocyte Chemoprevention Trial, aimed at prevention of nonmelanoma skin cancer in high risk patients.

Dr. Swetter co-leads the Stanford University Network for Sun Protection, Outreach, and Teamwork (SUNSPORT) program to improve primary skin cancer prevention in college athletes. Her current Wipe Out Melanoma-CA research aims to increase professional and public education to improve melanoma awareness and recognition across all racial-ethnic groups and socioeconomic classes. She is working with Stanford and Cedars Sinai Hospital collaborators to engage community participants (patients and providers) to combat fatal melanoma across the state through the newly-formed Melanoma Community Registry of California (MCRC) - which aligns with the national War on Melanoma efforts. Dr. Swetter is also involved in clinical trials for advanced melanoma patients at the Stanford Cancer Center.

CLINICAL TRIALS

- A Pharmacokinetic/Pharmacodynamic Study of RO5185426 in Previously Treated Patients With Metastatic Melanoma, Not Recruiting
- A Study of Atezolizumab (an Engineered Anti-Programmed Death-Ligand 1 [PDL1] Antibody) to Evaluate Safety, Tolerability and Pharmacokinetics in Participants With Locally Advanced or Metastatic Solid Tumors, Not Recruiting

- A Study of Vemurafenib Adjuvant Therapy in Participants With Surgically Resected Cutaneous BRAF-Mutant Melanoma, Not Recruiting
- A Trial of Intratumoral Injections of SD-101 in Combination With Pembrolizumab in Patients With Metastatic Melanoma or Recurrent or Metastatic Head and Neck Squamous Cell Carcinoma, Not Recruiting
- An Investigational Immuno-therapy Study to Determine the Safety of Urelumab Given in Combination With Nivolumab in Solid Tumors and B-cell Non-Hodgkin's Lymphoma, Not Recruiting
- Analysis of Cutaneous and Hematologic Disorders by High-Throughput Nucleic Acid Sequencing, Not Recruiting
- Compassionate Use Trial for Unresectable Melanoma With Ipilimumab, Not Recruiting
- Dasatinib in Treating Patients With Locally Advanced or Metastatic Mucosal Melanoma, Acral Melanoma, or Vulvovaginal Melanoma That Cannot Be Removed By Surgery, Not Recruiting
- Ipilimumab or High-Dose Interferon Alfa-2b in Treating Patients With High-Risk Stage III-IV Melanoma That Has Been Removed by Surgery, Not Recruiting
- Ipilimumab With or Without Sargramostim in Treating Patients With Stage III or Stage IV Melanoma That Cannot Be Removed by Surgery, Not Recruiting
- Pilot Ipilimumab in Stage IV Melanoma Receiving Palliative Radiation Therapy, Not Recruiting
- Sulindac in Preventing Melanoma in Healthy Participants Who Are at Increased Risk of Melanoma, Not Recruiting
- Vaccine Therapy Using Melanoma Peptides for Cytotoxic T Cells and Helper T Cells in Treating Patients With Metastatic Melanoma, Not Recruiting
