Bio

BIO

Dr. Maldonado is Medical Director of Psychosomatic Medicine and Chief of Psychiatric Emergency Services and Transplant Psychiatry at Stanford University Medical Center. He is board certified in Adult Psychiatry, Psychosomatic Medicine, Forensic Psychiatry, Addiction Medicine, and Forensic Medicine. He is Chair of the Stanford School of Medicine – Faculty Senate and President of the American Delirium Society.

His research lab developed the Stanford Integrated Psychosocial Assessment for Transplantation (SIPAT) a tool created to assess the psychosocial candidacy of organ transplant and ventricular assisted devices (VADs) candidates. In addition, his research has led the field of Psychosomatic Medicine with the development of tools for the prediction and assessment of various neuropsychiatric disorders; including the development of a new tool for the timely and accurate diagnosis of delirium: the Stanford Proxy Test of Delirium (S-PTD); the Stanford Algorithm for Predicting Delirium (SAPD), a tool to help predict patients at risk for developing delirium; and the Prediction of Alcohol Withdrawal Severity Scale (PAWSS). He has developed management protocols and algorithms for the prevention and treatment of delirium; as well as novel pharmacological techniques (benzodiazepine-sparing protocol) for the prophylaxis and treatment of complicated alcohol withdrawal syndromes.

Dr Maldonado has been the recipient of multiple awards and recognitions, including: the 2004 – Dlin/Fischer Award for significant achievement in clinical research from the Academy of Psychosomatic Medicine for work on reduction of post-operative and critical care delirium; the 2009 – Dorfman Award for Best Original Research from the Academy of Psychosomatic Medicine for development of the Stanford Integrate Psychosocial Assessment for Transplantation (SIPAT); the 2014 – Dlin/Fischer Award for significant achievement in clinical research from the Academy of Psychosomatic Medicine for the development of the Prediction of Alcohol Withdrawal Severity Scale (PAWSS); the 2014 – Herbert Spiegel Award for Hypnosis Research from the Department of Psychiatry at Columbia University & New York State Psychiatric Institute; the 2016 – Sawlow Memorial Award on Neuroscience from the Oregon Health & Science University for his work on the pathophysiology and management of delirium; the 2017 – Franz-Köhler-Inflammation-Award from the German Society of Anesthesiology and Intensive Care Medicine (DGAI) for extraordinary achievements in research on inflammation and its relationship to the pathophysiology of delirium; and the 2018 – Eleanor and Thomas P. Hackett Memorial Award by the Academy of Consultation-Liaison Psychiatry, the Academy's highest honor, for distinctive achievements in CLP training, research, clinical practice, and leadership.

CLINICAL FOCUS

- Psychosomatic Medicine
- Forensic Psychiatry
- Neuropsychiatry
- Psychiatry

ACADEMIC APPOINTMENTS

- Professor - Med Center Line, Psychiatry and Behavioral Sciences
- Professor - Med Center Line (By courtesy), Emergency Medicine
- Professor - Med Center Line (By courtesy), Medicine - Operations

ADMINISTRATIVE APPOINTMENTS

- Chair, Ethics Committee, Society for Clinical and Experimental Hypnosis, (1995-1997)
- Medical Director, Psychosomatic Medicine Service, Stanford Hospital and Clinic, (1995- present)
- Admissions Panel, Stanford University Medical School, (1998-2008)
- Co-Chair, Ethics Committee, Stanford University Medical Center, (2001-2009)
- Committee on Xenotransplantation, The Secretary of Health & Human Services, (2004-2008)
- National Panel on Transplantation, National Institute of Health, (2004-2008)
- Senator-at-Large, Stanford School of Medicine, (2009-2013)
- Fellowship Director, Psychosomatic Medicine Program, Stanford School of Medicine, (2010- present)
- Departmental Senator, Psychiatry, Stanford School of Medicine, (2011-2019)
- Member, Board of Directors, American Delirium Society, (2012- present)
- Chief, Psychiatry Emergency Service, Stanford Hospital & Clinics, (2015- present)
- Chair, Stanford School of Medicine Faculty Senate, Stanford School of Medicine, (2016-2018)
- President, American Delirium Society, (2017-2018)

HONORS AND AWARDS

- Charles Shagass, MD Award, for meritorious scholarly work during residency, Temple University School of Medicine (1992)
- Fellow, American College of Forensic Psychiatry (1996)
- Fellow, Academy of Psychosomatic Medicine (1996)
- 2001-Teacher of the Year Award, Psychiatric Times (2001)
- Best Paper on the Application of Hypnosis, American Psychological Association (2002)
- 2003 Kaiser Awards for Clinical Teaching, Stanford University School of Medicine (2003)
- Best Researcher/Author Presentation, 17th World Congress on Psychosomatic Medicine (2003)
- DLIN/Fischer Award, for significant achievement in clinical research, Academy of Psychosomatic Medicine (2004)
- Teacher of the Year Award, Department of Psychiatry & Behavioral Sciences, Stanford University (2004)
- Dorfman Award, for Best Case Report, Academy of Psychosomatic Medicine (2006)
- Dorfman Award for Best Original Research, Academy of Psychosomatic Medicine (2009)
- Teacher of the Year Award, Department of Psychiatry & Behavioral Sciences, Stanford University (2009)
- Research Poster of the Year Award, Academy of Psychosomatic Medicine (2012)
- Research Poster of the Year Award, Society for Academic Emergency Medicine (2013)

- Dlin/Fischer Award for significant achievement in Clinical Research, Academy of Psychosomatic Medicine (2014)
- Herbert Spiegel Award for Hypnosis Research, Department of Psychiatry at Columbia University & New York State Psychiatric Institute (2014)
- Research Poster of the Year Award, Academy of Psychosomatic Medicine (2014)
- Visiting Professorship Award, Academy of Psychosomatic Medicine (2014)
- Sawlow Memorial Award on Neuroscience, Oregon Health & Science University and the Portland International Neuroscience Symposium (2016)
- Franz-Köhler-Inflammation-Award, German Society of Anaesthesiology and Intensive Care Medicine (2017)
- 2018 – Eleanor and Thomas P. Hackett Memorial Award, Academy of Consultation-Liaison Psychiatry (2018)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, National Panel on Transplantation, National Institute of Health (2004 - 2008)
- Member, Secretary of Health & Human Services Committee on Xenotransplantation, Department of Health & Human Services (2004 - 2008)
- President, Board of Directors, American Delirium Society (2017 - 2018)
- Member, Governance Committee, Academy of Consultation-Liaison Psychiatry (2010 - 2019)
- Member Scientific Advisory Board, Network for Investigation of Delirium in the United States (NIDUS) (2016 - 2018)
- Member, Scientific Advisory Board (SAB), Network for Investigation of Delirium across the U.S. (NIDUS) (2017 - 2018)
- Chair, Faculty Senate, Stanford School of Medicine (2016 - 2018)
- Member, Panel: assigned to develop a new draft of the National Patient Safety Goal (NPSG) requirements on patients at risk for suicide, Joint Commission Standards Review Panel (2018 - present)
- Member Working Group on the Development of the ATS Research Statement on Severe Alcohol Withdrawal Syndrome (SAWS), American Thoracic Society (ATS) (2019 - present)
- Member of Board of Directors, American Delirium Society (2012 - present)

PROFESSIONAL EDUCATION

- Residency: Temple University Hospital Psychiatry Residency (1992) PA
- Internship: Temple University Hospital Psychiatry Residency (1989) PA
- Board Certification: Addiction Psychiatry, American Board of Addiction Medicine (2012)
- Board Certification: Psychosomatic Medicine, American Board of Psychiatry and Neurology (2005)
- Board Certification: Psychiatry, American Board of Psychiatry and Neurology (1993)
- Fellowship: New England Medical Center (1993) MA
- Medical Education: Ponce School Of Medicine (1988) PR
- Diplomate, ABPN , Forensic Psychiatry (2005)
- Diplomate, ABPN , Psychosomatic Medicine (2005)
- Diplomate, American Board Forensic Examiner , Forensic Medicine (1996)
- Diplomate, American Board Forensic Medicine , Forensic Medicine (1996)
- Diplomate, ABPN , General Psychiatry (1993)
- Fellowship, New England Medical Center , Psychosomatic Medicine (1993)
- Resident, Temple University Hospital , Residency in Psychiatry (1992)
- MD, Ponce School of Medicine , Medicine (1988)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

His research interests include: delirium, alcohol withdrawal in the medically-ill, solid organ transplantation, and the medical use of hypnosis. For the last 24 years he has been studying the psychosocial aspects of solid organ and composite tissue transplantation; which has led to the development of the Stanford Integrated Psychosocial Assessment for Transplantation (SIPAT) to assess the psychosocial candidacy of organ transplant and ventricular assisted devices (VADs). Over the last 20 years he has studied the diagnosis, neurobiology, prevention and management of delirium; developing prevention and treatment protocols, and writing numerous manuscripts and chapters in the topic. More recently, his research team has developed a new tool for the timely and accurate diagnosis of delirium: the Stanford Proxy Test of Delirium (S-PTD) and a tool to help predict those patients at risk for developing delirium, the Stanford Algorithm for Predicting delirium (SAPD). Over the last 6 years, Dr Maldonado has led his research team in studying the neuropathophysiology of alcohol withdrawal syndrome and its relationship to delirium tremens. This eventually led to the development of a new tool for the prediction of patients at risk of severe AWS: the Prediction of Alcohol Withdrawal Severity Scale (PAWSS); and novel pharmacological techniques for the prophylaxis and treatment of complicated alcohol withdrawal syndromes.

CLINICAL TRIALS

- A Comparison of Lorazepam and Diazepam in the Treatment of Alcohol Withdrawal, Not Recruiting
- A Pilot Study of "Stanford Proxy Test for Delirium" (S-PTD), Not Recruiting
- Is Dexmedetomidine Associated With a Lower Incidence of Postoperative Delirium When Compared to Propofol or Midazolam in Cardiac Surgery Patients, Not Recruiting
- The "Prediction of Alcohol Withdrawal Severity Scale" (PAWSS), Not Recruiting
- Valproic Acid for Treatment of Hyperactive or Mixed Delirium in ICU, Not Recruiting

Teaching

GRADUATE AND FELLOWSHIP PROGRAM AFFILIATIONS

- Psychiatry and Behavioral Science (Fellowship Program)

Maldonado JR, Spiegel D
1994: 215-241

PRESENTATIONS

- "Evidence-Based Delirium Prevention & Treatment" - Academy of Psychosomatic Medicine (11/16/2013)
- What's sundowning and why should we care? - Academy of Psychosomatic Medicine (11/16/2013)
- Neuropsychiatric Aspects of Chronic Fatigue Syndrome - Academy of Psychosomatic Medicine (11/16/2013)
- The Stanford Integrated Psychosocial Assessment for Transplantation (SIPAT): A Prospective Study of Medical & Psychosocial Outcomes of Solid Organ Transplant Recipients - Academy of Psychosomatic Medicine (11/15/2013)
- Prospective Validation Study of the Prediction of Alcohol Withdrawal Severity Scale (PAWSS): A new scale for the prediction of moderate to severe alcohol withdrawal in medically ill patients - Academy of Psychosomatic Medicine (11/15/2013)
- Neuropsychiatric Aspects of Orthotopic Liver Transplantation - Academy of Psychosomatic Medicine (11/14/2013)
- An Update on the Management of Delirium: Diagnosis, Prevention & Treatment (May 22, 2013)
- Non-Epileptiform Seizures - American Psychiatric Association 166th Annual Meeting (5/22/2013)
- Diagnosis and Treatment of Limbic Encephalitis - American Psychiatric Association annual meeting (5/20/2013)
- The Stanford Integrated Psychosocial Assessment for Transplantation (SIPAT): A One Year Prospective Study - International Society for Heart Lung Transplantation (4/25/2013)
- Pharmacological Management of Delirium in Elderly Patients - American Association of Geriatric Psychiatry (3/17/2013)
- Delirium Updates: Delirium Pathophysiology And Biomarkers among Patients With Cancer - American Association of Geriatric Psychiatry (3/17/2013)
- Evidence-Based Pharmacological Techniques for the Prevention and Management of Delirium Among Cancer Patients - American Psychosocial Oncology Society (2/15/2013)
- Alcohol Withdrawal Syndromes: Pathophysiology derived treatments - Vanderbilt University (2/21/2014)
- Understand Delirium: A process-based circuitry approach", as part of the symposium Teaching Neuropsychiatry: An approach to neural circuitry, brain imaging, and behavior. - Academy of Psychosomatic Medicine (11/14/2013)
- Pathophysiology and Alternative Treatments of Alcohol Withdrawal Syndrome - Congreso Colombiano de Psiquiatria (10/12/2013)
- Delirium: Causes, Prevention and Treatment - Congreso Colombiano de Psiquiatria (10/11/2013)

- Management of the Agitated Hospitalized Patient - Kaiser Permanente Medical Center (9/6/2013)
- Alcohol Withdrawal Delirium as a Pathoethiologic Model for Acute Brain Failure - American Delirium Society (June 4, 2013)
- Evidence Based Techniques for the Pharmacological Prevention and Management of Delirium - American Delirium Society (6/2/2013)
- Acute Brain Failure: Delirium Epidemiology and Predisposing Factors - American Delirium Society (6/2/2013)
- Neurobiology, Prevention and Treatment of Alcohol Withdrawal – Are Benzodiazepines Really Necessary? - American College of Medical Toxicology (3/14/2013)
- Hair of the Dog: The Pathophysiology of Alcohol Withdrawal & Foundations of Treatment - American College of Medical Toxicology (3/14/2013)
- Novel Treatments of Alcohol Withdrawal Syndromes-Beyond Benzodiazepines: A Systematic Literature Review and Case Series - Nevada Psychiatric Association (2/16/2013)
- Neuropsychiatric Issues During the Peri-transplantation Period - Nevada Psychiatric Association (2/16/2013)
- A Brain Fooled: Neurobiology of Conversion Disorder - King Saud University (2/14/2013)
- Acute Brain Failure: New Insights on Prevention & Treatment of Delirium - King Saud University (2/14/2013)
- Neuropsychiatric Sequelae of Traumatic Brain Injury - King Saud University (2/13/2013)
