#### CURRENT ROLE AT STANFORD

I manage the Stable Isotope Biogeochemistry Laboratory in the Mitchell Building, part of the Environmental Measurements Facility 2 (EMF2) at Stanford's School of Earth Sciences. The lab houses 8 analyzer systems interfaced with 5 mass spectrometers which are used for high-precision stable isotope measurements of a wide variety of materials from terrestrial as well as marine environments. My role there is to ensure smooth operation of the instrumentation, to closely monitor the quality of the generated data, and to work with students and researchers to optimize existing or develop new methods for both sample preparation and analysis.

#### EDUCATION AND CERTIFICATIONS

- PhD, Dartmouth College , Earth Sciences (1996)
- Diploma, Universität Karlsruhe, Germany , Geology (1988)

### Professional

---

#### WORK EXPERIENCE

- Research and Development Scientist and Engineer - Stanford University (January 1, 2007)
- Associate Professor - Universität Potsdam. (9/1/2004 - 12/31/2006)
- Professor - Universität Hannover (9/1/2003 - 8/31/2004)
- Assistant Professor - Universität Potsdam. (3/1/1997 - 8/31/2003)
- Postdoctoral Researcher - Universität Potsdam. (July 1, 1996 - 2/28/1997)

### Publications
