Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

The Genito-Urinary Multidisciplinary tumor board at Stanford specializes in taking care of patients with prostate cancer, renal cancer, testicular and bladder cancer. Patients are seen at different stages of their tumor. A multidisciplinary approach is used. A variety of clinical trials are available to patients. Phase II trials using unique combination of chemotherapy agents, antiangiogenic drugs, novel agents are being explored. Co-operative group participation through ECOG is also available
